### Cool looks to match your mod

- Rainbow backlight

### Unique Design

- Dual-mode switchable
- Detachable palm rest

### Philips reliability

- Aluminum alloy frame

### Performance to dominate

- Full-key roll over anti-ghosting for complex fast inputs
- Dialed-in mechanical cyan switches for fast reaction

# PHILIPS

# Highlights

## Full n-key rollover

Fast complex gaming key strokes demand advanced performance. With full N-key rollover every key is registered independently without confusion so that each keystroke is correctly registered regardless of how many other keys are being pressed or held down at the time.

## Fast mechanical switches

The most popular mechanical switches for gaming keyboards, Cyan mechanical switches

offer gamers a light tactile clicky key for rapid activation and performance.

## Aluminum alloy frame

The high-quality and durable aluminum alloy structure ensures the long-term service life of the keyboard.

## Dual-mode switchable

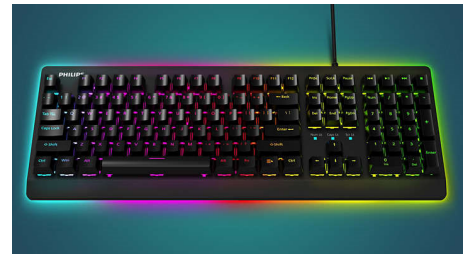

Cool rotary controller, you can easily switch between gaming and work modes. Quickly adapt backlight and volume to any atmosphere.

## Detachable palm rest

This magnetic palm rest can be easily connected to or detached from the keyboard as needed. It gently protects your wrists, so that you are free of exhaustion even after a long time gaming.

## Rainbow backlight

Cool rainbow backlight gives you more immersive gaming experience, secure your victory every time.
