# Power free digital display boards

## Technology for a brighter future

From confidently coloured menu boards to paper free POS posters, Philips Tableaux bring new era display potential to life.

Digitise paper-based signage or swap out current digital models with ultra clear, easily updatable, ePaper displays.

### Benefits

#### Operational flexibility
• Run your content at all times

#### Brilliant performance
• Android SoC processor
• Full color e-paper display
• Sunlight readable

#### Cost-effective system solution
• Low power consumption, power free operation

#### Versatile system solution
• Technology for the future

### Features

#### Easy content loading
Displaying 60,000 colours, including blue, for clear and confident messaging, and with 16GB internal memory. Plug into a power source to upload new static content for instant play, via USB, LAN or WiFi connections.

#### Low to no power consumption
Perfect for environments without close access to power. Philips Tableaux can be positioned and repositioned, displaying colourful static content in the same way as paper posters, requiring a power connection only when loading new content.
