

Wired mechanical gaming keyboard

- 7-way ambiglow lighting
- High-speed mechanical keys
- Full key N-rollover
- Black alloy surface

SPK8413/00

Brighten up your gaming

"The new G413 Momentum gaming keyboard features backlit and silent, high speed mechanical keys for the ultimate experience.

Benefits

Performance to dominate

- Full-key roll over anti-ghosting for complex fast inputs
- Dialed-in mechanical cyan switches for fast reaction

Cool looks to match your mod

- Ambiglow game lighting for more immersive gaming

Designed for heavy use

- 50 million keystroke lifespan
- Alloy surface for super durability

Features

Full n-key rollover

Fast complex gaming key strokes demand advanced performance. With full N-key rollover every key is registered independently without confusion so that each keystroke is correctly registered regardless of how many other keys are being pressed or held down at the time.

50 million keystroke lifespan

How long does it take to get to 50 million keystrokes? A long time. Familiar and reliable this keyboard is built to last for many years of fast action.

PHILIPS

Alloy surface design

Everything about this keyboard is built to last for rugged high performance use, even down to the keyboard surface. The Alloy surface is designed for high durability, superior rigidity and looks great too.

Fast mechanical switches

The most popular mechanical switches for gaming keyboards, Cyan mechanical switches offer gamers a light tactile clicky key for rapid activation and performance.
