- Product weight: 3.9 kg
- Set width (with stand): 468 mm
- Set height (with stand): 392 mm
- Set depth (with stand): 166 mm
- Product weight (+stand): 4.4 kg
- Box width: 486 mm
- Box height: 186 mm
- Box depth: 562 mm
- Weight incl. Packaging: 6 kg
- Wall mount compatible: 100 x 100 mm

Highlights

SmartLoader
Provides the ability to copy TV settings and analog channel programming from one TV set to other TV sets in less then a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

Serial Xpress Protocol (SXP)
The TV can be connected to external decoders and set-top boxes of all major interactive system providers, through the Serial Xpress Protocol (SXP).

Connectivity Panel compatible
This TV work seamlessly with Philips Connectivity Panels. The guest can easily connect and enjoy media from a PC, MP3 player, DVD player, camcorder and various other devices. With autosensing the Connectivity Panel and the TV will automatically switch to display the content from the connected guest device.

Set-top box compatible
This hotel TV can be connected to a set-top box offering power on scart and the Serial Express Lite protocol.

Volume limitation
This feature predefines the volume range with which the TV set is allowed to operate, preventing excessive volume adjustments and avoiding disturbance of next door guests.

Welcome message
A welcome greeting is displayed each time the TV set is switched on.

Eco-friendly design
Sustainability is integral to the way Philips does business. Philips TVs are designed and produced according to our EcoDesign principles aimed at minimizing overall environmental impact, through lower power consumption, removal of hazardous substances, lower weight, more efficient packaging and better recyclability. Philips TVs also have a special housing of flame retardant material. Independent tests carried out by emergency fire services have shown that whereas TVs can sometimes intensify fires caused by external sources, Philips TVs will not contribute to the fire.

Installation menu locking
Prevents unauthorized access to installation and configuration settings, to ensure maximum guest convenience and avoid unnecessary reprogramming costs.

Switch On Channel Programming
Perfect for in-house advertising or information channels as it allows to show a predefined channel when the TV is turned on.
