# Super energy efficient

with brilliant performance

The eco-friendly Philips 27" monitor is designed for sustainable productivity. Super-energy-efficient design delivers a new level of power savings. PowerSensor and LightSensor further reduce energy use while delivering crisp visuals.

### Brilliant performance

- IPS technology for full colours and wide viewing angles
- LowBlue Mode for easy-on-the-eyes productivity

### Eco-friendly materials for sustainability

- 100% Recyclable packing material
- Eco-friendly materials meet major international standards
- Low halogen design to minimise environmental impact

### Energy efficiency - Eco-conscious power savings

- LightSensor for the perfect brightness with minimal power
- PowerSensor saves up to 70% energy costs
- Super-energy-efficient design for maximum power savings
- Zero power consumption with 0 watt hard switch

### Designed for comfortable productivity

- TUV Eye Comfort certified to reduce eye fatigue

# Highlights

## Super-energy-efficient design

Using the new energy saving design with a super-efficient power supply, this monitor achieves a higher energy class, while giving excellent performance. The power-efficient feature uses new LED backlight technology which maintains brightness and colour using significantly less energy; this makes a big difference when using many monitors or even just one.

## PowerSensor

PowerSensor is a built-in 'people sensor' that transmits and receives harmless infrared signals to determine if the user is present and automatically reduces monitor brightness when the user steps away from the desk, cutting energy costs by up to 70 percent and prolonging monitor life.

## LightSensor

LightSensor uses a smart sensor to adjust the picture brightness depending on the light

conditions in the room for the perfect picture with minimal power usage.

## Zero power consumption

At the flick of the 0 watt hard switch, which is conveniently located at the back of the monitor, you can completely cut off your monitor from AC power. This results in zero power consumption, reducing your carbon footprint even further

## Eco-friendly materials

Philips is committed to using sustainable, eco-friendly materials across its monitor range. All body plastic parts, metal chassis parts and packing materials use 100% recyclable materials. In selected models, we utilise up to 85% post-consumer recycled plastics. Strict adherence to RoHS standards ensures substantial reduction or elimination of toxic substances.

## 100% Recyclable packing material

100% Recyclable packing material for less environmental impact.

## Low halogen design

Low halogen design to minimise environmental impact

## IPS technology

IPS displays use advanced technology that gives you extra-wide viewing angles of 178/178 degrees, making it possible to view the display from almost any angle — even in 90-degree Pivot mode! Unlike standard TN panels, IPS displays gives you remarkably crisp images with vivid colours, making it ideal not only for Photos, films and web browsing, but also for

professional applications that demand colour accuracy and consistent brightness at all times.

## LowBlue Mode

Studies have shown that just as ultra-violet rays can cause eye damage, shortwave-length blue light rays from LED displays can cause eye damage and affect vision over time. Developed for wellbeing, the Philips LowBlue Mode setting uses a smart software technology to reduce harmful shortwave blue light.

## TUV Rheinland Eye Comfort

Philips displays meet TUV Rheinland Eye Comfort standard to prevent eye strain caused by prolonged computer use. With TUV Eye Comfort certification, Philips displays ensure flicker-free, low-blue mode, no disturbing reflections, a wide viewing angle, less reduction of image quality from different angles and ergonomic stand designs for an ideal viewing experience. Keep your eyes healthy and boost work productivity.

- Product with stand (kg): 6.00 kg
- Product without stand (kg): 4.40 kg

## Operating conditions

- Altitude: Operation: +12,000 ft (3658 m), Non-operation: +40,000 ft (12,192 m)
- Temperature range (operation): 0°C to 40°C °C
- Relative humidity: 20%-80 %
- Temperature range (storage): -20°C to 60°C °C
- MTBF (demonstrated): 70,000 hrs (excluded backlight)

## Sustainability

- Environmental and energy: EnergyStar 8.0, PowerSensor, LightSensor, EPEAT\*, RoHS, TCO Certified Edge
- Post-consumer recycled plastic: 85%
- Recyclable packaging material: 100 %
- Specific Substances: Mercury free, PVC/BFR free housing

## Compliance and standards

- Regulatory Approvals: CB, FCC Class B, ICES-003, CE Mark, TUV Ergo, TUV/GS, SEMKO, CU-EAC, EAEU RoHS, UKRAINIAN, TUV Eye Comfort certified

## Cabinet

- Finish: Texture
- Foot: Black
- Front bezel: Black
- Rear cover: Black

## What's in the box?

- Cables: VGA cable, HDMI cable, DP cable, Audio cable, Power cable
