

PHILIPS

AVENT

Anti-colic baby
bottle

1 Bottle

11oz/330ml

Flow 3 nipple

3m+

SCY106/01

Clinically proven to reduce colic and discomfort*

Designed for uninterrupted feeding

Our Anti-colic bottles' with anti-colic valve system and textured nipple is designed to minimize feeding interruptions and discomfort. With its integrated anti-colic valve, air is vented into the bottle and away from the baby's tummy

Other benefits

- Compatible range from breastfeeding to cup
- This bottle is BPA free
- A range of flow rates are available for your growing baby

Clinically proven to reduce colic and discomfort*

- Nipple shape designed for secure latch
- Ribbed texture prevents collapse for uninterrupted feeding
- Unique anti-colic valve – designed to reduce air ingestion

Easy to use, clean and assemble

- Leak-free design
- Easy to clean and assemble with few parts
- Wide neck bottle with rounded corner for easy cleaning
- Easy to hold

Net weight: 0.075 kg
Gross weight: 0.105 kg
GTIN: 8720689009805
Country of origin: ID
Harmonized system code: 39241000

Outer Carton

Height: 19.7 cm
Width: 22.6 cm
Length: 15.2 cm

Net weight: 0.522 kg
Gross weight: 0.785 kg
GTIN: 18720689009802

Material

Bottle: Polypropylene, BPA free

What is included

Baby bottle: 1 pcs

Ease of use

Bottle use: Dishwasher & microwave safe, Easy to assemble, Easy to clean, Easy to hold

Bottle

Capacity: 11oz/330ml

Functions

Ease of use: easy to clean and assemble, leak-free, 4 pieces for easy assembly
Anti-colic valve: reduces air ingestion
Nipple: Easy latch on, Ribbed texture prevents nipple collapse, Proven anti-colic system

Development stages

Stage: 0-12 months

* At 2 weeks of age, babies fed with a Philips Avent bottle showed less colic, and significantly less fussing at night compared to babies fed with another leading bottle.

* Nipple design proven to prevent nipple collapse and associated air ingestion and feeding interruptions.

* What colic is, and how it affects babies? Colic is caused in part by swallowing air while feeding, which creates discomfort in a baby's digestive system. Symptoms include crying and fussing.
