- Sturdy one-piece body for tough environments
- IP69K waterproof to master the elements
- Corrosion-free body, stainless-steel mounting brackets

Trouble-free installation

- Trouble-free installation

Specifications

Product description

Boost mode activation: No
Break resistance
ECE R10: No
ECE R149: No
Impact protection rating (IK): IK07
Ingress protection rating (IP): IP68 & IP69K
Installation angle: 360°
Material: Aluminum die-cast
Number of LEDs: 4x 7W
Offroad boost: No
One-piece body design
Operating temperature: -40° C to 80° C
Range: Ultinon Drive 5000
Scratch resistant lens
Technology: LED
Width: 3 inch
Boost function installation: No
Accessories (optional): LUMUD1005WX1, LUMUD1006WX1
corrosion-free brackets: Yes, included
Parking position light: No
Plug type: 2-pin DT Connector with 0,5 m cable
ECE reference number: n/a
Cable length: 0,5 m
Compatible with: N/A
Fuse: No
Number of connector plug: 1
Relay: No
Switch On/Off: No
Storage temperature: -40° C to 80° C

Light characteristics

Color temperature: 6000 K K
Beam length 1 lux-m: 73 m
Effective lumen output: 2450 lumen
Raw lumen output: 3480 lumen
Effective lumen output (Boost mode): n/a
Beam length 3 lux: 42 m
Beam width 1 lux: 32 m

Electrical characteristics

Voltage: 9-48 Volt DC
Wattage: 25w

Ordering information

Order entry: UD5003CX1
GOC: 02428250

Packaging Data

EAN1: 8719018024282
EAN3: 8719018024299

Packed product information

MOQ (for professionals): 8
Box dimensions-L(mm): 150
Box dimensions-W(mm): 112
Box dimensions-H(mm): 88
Number of product in the box: 1
Gross weight box: 680 g
Net weight product: 590 g

Outerpack information

Length: 32 cm
Width: 24 cm
Height: 19,5 cm
Gross weight per carton: 6500 g

Highlights

Superior visibility

The Philips UD5003C LED work light provides a great beam that illuminates the road ahead for 147 meters*. Featuring 2450 lumens (effective), our LED work light provides ample visibility for faster reactions. As a combined spot and flood light, it shines far and wide, helping you see roadside hazards too. The lamps highly homogenous beam and the cool color temperature of 6000 Kelvin keep you focused without straining your eyes.

Sturdy one-piece body

The Philips Ultinon Drive 5000 series is built in a single piece to withstand the most challenging conditions. This allows for excellent heat management and consistently high light output throughout your journey. Rated IK07, it is shock-resistant to ensure faultless performance on and off the road. Its unbreakable polycarbonate lens can take any hit without damage or scratches, and the convenient DT connector guarantees a perfect connection.

Waterproof for durable light

With its ingenious screwless design, the Philips Ultinon Drive 5000 series can withstand the wettest conditions. IP68 and IP69K certifications mean it will perform wherever your road leads and whatever the weather. And it will be more than a match for any power washer you use to clean your car afterward.

Corrosion-free

The Philips UD5003C LED work light offers ultimate corrosion protection with its anodized pre-treated and automotive-grade powder-top-coat body. Its mounting brackets are made of stainless steel, which is corrosion-free. It can withstand snow, ice, and even salt. Built from durable, high-quality materials, your Philips auxiliary LED lights will provide years of reliable service.

Trouble-free

Philips Ultinon Drive 5000 series are designed and tested to ensure they function smoothly with your vehicles electrical systems. They don't create electrical interference that might interfere with other vehicle functions. Supplied with a pre-wired male/female 2-pin super seal DT connector, our LED work lights are voltage-overload and reverse-polarity protected to make installation safe and easy. Compatible with Philips with UD1005W and UD1006W wiring harness kits.
