2 delicious coffees from fresh beans, with ease

Thanks to the intuitive touch display

Enjoy the delicious taste and aroma of coffee from fresh beans, at the perfect temperature, thanks to our intelligent brewing system. The classic milk frother allows you to create a silky smooth cappuccino or latte macchiato with ease.

A variety of coffees customized to your taste

- Delicious milk froth thanks to the classic milk frother
- Easily adjust to your taste with 12-step grinder levels
- Adjust aroma strength and quantity via My Coffee Choice
- Easy selection of your coffee with intuitive touch display

High quality coffee from fresh beans

- 20,000 cups of finest coffee with durable ceramic grinders
- The perfect temperature, aroma and crema cup after cup**

Effortless use and cleaning for everyday enjoyment

- Easy cleaning thanks to fully removable brew group
- Up to 5000 cups* without descaling thanks to AquaClean
- Dishwasher safe parts for your convenience
- Automatic descaling for your convenience

PHILIPS

Fully automatic espresso machines
2 beverages Classic Milk Frother, Matte black, Touch display

EP0820/00

Highlights

Removable brew group

The brew group is the heart of every fully automatic coffee machine, and should be cleaned regularly. The removable brew group allows you to clean it thoroughly just by rinsing it under the tap.

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups*, while enjoying clear and purified water.

Classic milk frother

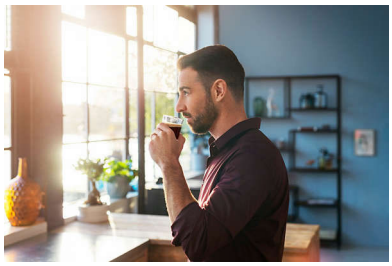

The Classic Milk Frother dispenses steam, allowing you to easily prepare silky smooth milk froth for your cappuccino. What's more? With only two parts, the Classic Milk Frother is also easy to clean.

100% ceramic grinders

Bring out the full flavor of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures they last for at least 20.000 cups.

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

Dishwasher safe parts

For your convenience, you can put the milk system, drip tray and the coffee ground container in the dishwasher. This will save time and ensure a hygienic cleaning.

12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

Automatic descaling alarm

It's easy to clean and maintain your coffee machine with the automatic program which notifies when you have to descale it. You can adjust the frequency of this procedure to match the water hardness at home.

My Coffee Choice

Adjust the strength and quantity of your beverage with the My Coffee Choice menu. Easily choose from three different settings to suit your preferences.
