## Ease your baby's transition to a drinking cup

The Natural trainer kit eases your baby into their first cup. The comfort grips help your baby hold the bottle independently while drinking from the familiar nipple.

### Easy to combine breast and bottle feeding

- Natural latch on with breast-shaped nipple
- Nipple releases milk when baby actively drinks

### Ideal first step to a drinking cup

- Soft touch trainer handles for little hands

### Other benefits

- Designed to reduce colic and discomfort
- No-drip nipple design prevents spills and lost milk
- Compatible across the Philips Avent range
- Natural Response Nipples and Bottles are BPA free\*

### Other benefits

- Be patient as baby adjusts
- Choose the right nipple flow for your baby

# Highlights

## Ergonomic trainer handles

Trainer handles help your toddler to hold the cup and drink independently. These handles are shaped for little hands to grab easily and they are rubberized for a non-slip grip.

## Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

## Compatible across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it.

## Natural Response Nipple

The Natural Response Nipple works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The nipple has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

## No-drip nipple

The nipple opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

## BPA free\*

The Philips Avent Natural bottles and nipples are made of BPA free\* material.

## Natural latch on

The wide, soft and flexible nipple is designed to mimic the shape and feel of a breast, helping baby to latch on and feed comfortably.

## Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

## Be patient as baby adjusts

Our new Natural Response Baby Bottles are different from free-flow baby bottles. Just like breastfeeding, it could take a few tries to get it right. That's perfectly natural.

# Specifications

## Material

**Nipple:** Silicone, BPA free\*

**Trainer Cup:** Polypropylene, BPA free\*

## What is included

Trainer cup with Flow 5 nipple: 1 pcs
