Best-in-class picture quality

Experience the ultimate Flat TV with premium picture quality from Pixel Plus and the latest LCD technology, packed into a stunning, interior-enhancing design.

Superb sound reproduction

- Virtual Dolby Surround for a cinema-like audio experience

Breathtaking natural pictures

- High-definition LCD WXGA display, 1280 x 768p
- Pixel Plus for detail, depth and clarity
- Progressive Scan component video for optimised image quality
- Active Control with Light Sensor optimises picture quality

Multi-purpose convenience

- Built-in FM radio to enjoy your favourite radio stations.
- View PC content in a second window on your TV
- Twin page teletext allows simultaneous viewing of two pages
- 10 page Smart Text for fast access to teletext.
- PC input lets you also use your TV as a PC monitor

PHILIPS

Highlights

LCD WXGA display, 1280 x 768p

This WXGA display with state-of-the-art LCD screen technology gives you an HD resolution of 1280 x 768p pixels. It produces brilliant flicker-free progressive scan pictures with optimum brightness and superb colours. This sharp and vibrant image will provide you with an enhanced viewing experience.

Pixel Plus

Pixel Plus is a digital picture processing technology that increases the number of lines and the number of pixels. The result is razor sharp pictures with incredible detail and depth, every time and from any source.

Progressive Scan

Progressive Scan doubles the vertical resolution of the image resulting in a noticeably sharper picture. Instead of sending a field comprising the odd lines to the screen first,

followed by the field with the even lines, it writes both fields at the same time. A full image is created instantaneously, using the maximum resolution. At such a speed, your eye perceives a sharper picture with no line structure.

Active Control + Light Sensor

Active Control is a unique and intelligent way of optimising picture quality by measuring and analysing the incoming signal to automatically adjust picture quality settings. Active Control with Light Sensor uses a sensor to adjust the picture brightness depending on the room lighting conditions.

Virtual Dolby Surround

Virtual Dolby Surround is a processing technology for enhancing surround sound effects. It will create the sensation of Dolby Pro Logic without the necessity of additional rear speakers. You become totally immersed in your television experience.

FM Radio

A built-in FM radio capable of storing 40 preset stations. On-screen station naming makes navigation simple, and a handy Clock Screensaver is also included for use while listening.

PC input

With PC input you can connect your TV to a computer and use the TV as a PC monitor.

Picture in Graphics

Picture-in-Graphics is a small window in the main picture, allowing you to watch data/graphics on your main TV screen. It provides the ability to simultaneously watch data/graphics and the TV.

Twin page teletext

Twin page teletext allows you to simultaneously view two teletext pages side by side

10-page Smart Text

Teletext is a common system transmitted by most broadcasters. The 10-page smart text feature gives you fast access to information when changing pages.

Specifications

Picture/Display

- Aspect ratio: Widescreen
- Diagonal screen size (inch): 23 inch
- Diagonal screen size (metric): 58 cm
- Panel resolution: 1280 x 768p
- Brightness: 450 cd/m²
- Picture enhancement: Pixel Plus, Digital Crystal Clear, Contrast Plus, Progressive scan, 2D Combfilter, Active Control + Light sensor, 3/2 - 2/2 motion pull down, Colour Transient Improvement, Colour Temperature Adjustment, Digital Noise Reduction, Jagged Line Suppression, Luminance Transient Improver, Sharpness Adjustment
- Contrast ratio (typical): 400:1
- Display screen type: LCD WXGA Active Matrix TFT
- Response time (typical): 16 ms
- Viewing angle (horizontal): 170 degree
- Viewing angle (vertical): 170 degree
- Screen enhancement: Anti-Reflection coated screen

Supported Display Resolution

- Computer formats: 640 x 480, 60, 72, 75, 85 Hz, 800 x 600, 56, 60, 72, 75, 85 Hz, 1024 x 768, 60 Hz, 1280 x 768, 60 Hz
- Video Formats: 720 x 576i - 1Fh, 720 x 576p - 2Fh
