Designed to help healthy oral development

Developed with leading orthodontist Dr. Hagemann

Philips Avent advanced orthodontic teat SCF184/13 is designed to help healthy oral development. All our pacifiers are made from silicone and are taste and odor-free. Colors are subject to change.

Orthodontic nipple

- Shaped nipple
- Unique "wings"

Hygiene

- Snap on hygienic cap
- Can be sterilized
- Dishwasher Safe

IDHF approved

- This product is approved by IDHF

Highlights

Unique "wings"

Advanced orthodontic teat with unique wings that minimizes pressure on gums and developing teeth. The wings make the teat wider so that the pressure that is caused by baby's suckling is distributed more evenly resulting in less pressure per tooth.

Shaped nipple

The nipple is shaped to let baby's tongue remain in natural position.

Snap on hygienic cap

To keep sterilized nipples hygienic.

Can be sterilized

Can be sterilized

Dishwasher Safe

Dishwasher Safe

IDHF approved

Our soothers have been approved by the International Dental Health Foundation. The foundation is a leading independent oral health charity that works to improve the standard of oral health care worldwide. The new advanced orthodontic teat was developed with leading orthodontist Dr. Hagemann.
