

A close-up photograph of a man with a well-groomed beard and mustache. He is looking slightly to the side with a calm expression. He is holding a black and silver Philips beard trimmer against his cheek, just below his ear. The trimmer has a textured, perforated head. The background is a soft, out-of-focus grey.

# Beardtrimmer series 5000

Beard and stubble trimmer

BT5511/49

## Highlights

### One pass even trim

Never miss a spot again with the Philips Beardtrimmer Series 5000. Our inbuilt Lift&Trim system picks up low-lying hairs and rounded combs trim at an even length.

### 40 adjustable length settings

Cut to the exact length you're after with this cordless beard trimmer. Just spin the zoom wheel to one of 40 length settings in 1/128" (0.2mm) increments.

### DualCut

Get a fast and even trim with Philips beard trimmer for men, with self-sharpening steel blades and 2x as many blades, thanks to DualCut.

### Lift & Trim PRO system

Stubble doesn't stand a chance. The Lift&Trim Pro system captures all your low-lying hairs and lifts them up toward the blades for a precise cut – whilst still being an ideal trimmer for long beards too.

### 90 min corded/cordless use

Don't get tangled up in your stubble trimmer – a 1 hour charge provides up to 90 minutes of cordless grooming time. Or keep it plugged in for uninterrupted trimming. The 5 minute quick charge function gives you enough power for one trim.

### 2-year warranty

All of our grooming products are built to last. They come with a 2 year warranty, never need to be oiled and are compatible with any voltage worldwide.
