Lullabies and talkback

SCD881/20

Stay close to your baby

Private and secure with wireless technology

The Philips Avent SCD881 enables you to maintain a secure and private connection with your baby at all times. Hear your baby with perfect sound quality and also see your baby in crystal clear vision (2.8" LCD ; 7.2cm), day or night.

Private and secure

- High resolution 2.8" (7.2 cm) screen with night vision
- Energy-saving eco mode with connection indication
- Hear your baby with clear sound
- Private & secure connection with wireless technology

Freedom, flexibility, comforting and soothing

- Manual camera rotation for a complete view of baby's room
- Talk to your baby remotely
- Comforting lullabies to calm your little one
- Choose the best sound level for your surroundings
- Excellent operating time for overnight monitoring
- Range up to 300 metres*

Highlights

Private & secure connection

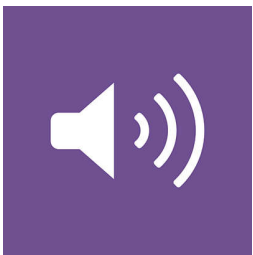

Unique handset pairing for a private, secure connection to your baby with a 2.4GHz wireless connection technology for minimal interference.

2.8" color screen with 2x zoom

See your baby, day and night, with crystal clear infra-red night vision that automatically switches on in the dark. Enjoy your baby sleeping with the high resolution, extra large 2.8" color screen. With 2x digital zoom and pan for extra reassurance so you can see everything your baby is up to.

Crystal clear sound video

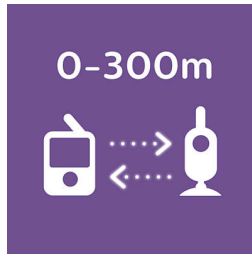

Hear every tiny giggle, gurgle and hic-up with perfect clarity. Not only see but also hear your baby any time with high-quality, crystal-clear sound.

ECO mode

Switch on the ECO mode to reduce power consumption during quiet times in the baby's room, safe in the knowledge that you are still connected to your baby via the unique link indication. The ECO mode switches off the audio/video transmissions and the units only connect when the baby makes a sound.

300m Range

Indoor range up to 50 metres*, Outdoor range up to 300 metres*

Operating time up to 12 hours**

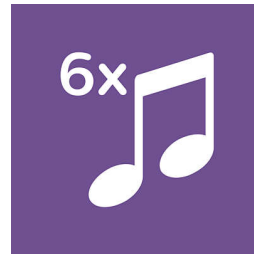

The convenient rechargeable parent unit will give you the freedom of cordless monitoring for up to 12 hours** before recharging is required.

Talk back

Sometimes all your baby needs is the soothing sound of your voice. With one click of this essential feature you can connect with your baby from anywhere around the home.

6 Lullabies and white noises

There's nothing like a gentle lullaby to calm a restless baby. From any room in the house you can select one of 6 relaxing tunes to help your baby drift off to sleep in no time.

Sensitivity control

It allows you to set the microphone sensitivity of the baby unit. The microphone sensitivity determines what level of noise is picked up by the baby unit, e.g. you might want to hear when your baby cries, but you may be less interested in his or her babbling.
