Highlights

MicroMasticating technology

Fruits and vegetables have many thousands of cells that contain juice, vitamins and other vital nutrients. Philips innovative MicroMasticating technology is designed to open up the cells to squeeze the maximum out of your favourite ingredients and will help you to get up to 90%* of your fruits into the glass and not as waste.

Soft fruits to hard vegetables

Make delicious healthy juices from soft fruits and hard vegetables. You can juice all your favourite combinations and use this product even for those special starchy ingredients that are normally very difficult to juice such as bananas or mangos.</p>
