Highlights

Ionic care

Static electricity exists everywhere especially in dry environment. That's why your hair gets frizzy and messy easily. To help you get rid of this annoying issue, we bring easier solution: ionic styling brush. The ionizer generates negative ions to neutralize positive charge of static electricity. It helps to reduce frizz and bring back smoothness and shine to your hair instantly. To improve the ion diffusion on hair, we keep the ionizer close to the cushion, which allows to spread ion on hair more efficiently when you brush. Keep neat look anytime, anywhere from now on!

Gentle bristle

All bristles tips are seamless to avoid scrubbing damage on scalp or hair trapping during usage. The special round ball tip has bigger touching surface so that it's more gentle to vulnerable scalp.

Optimal brush cushion

The optimally designed bristle cushion enables better force distribution and follows the contours of the head naturally for more convenience and comfort, the brushing experience is still comfortable despite the compact size. Thus, you can easily have a fast but great soothing head massage anytime, anywhere with shiny and smooth hair.

Compact & cute design

Compact size brush can fit for your make-up pouch and small bags. You may bring it with you always and use it anytime, anywhere. The eye-catching silhouette, seamless shell and cute, feminine touch makes it not only a brush, but an iconic beauty accessory with excellent performance.

Ergonomic shape

If you're looking for the handle of brush, our advice would be: you don't need a handle using Philips ionic styling brush! Philips always designs around you. The seamless and ergonomically curved shell fits excellently women's hand, ensuring great handling experience.

Detachable bristle cushion

Bristle cushion can be easily detached so that you may clean it with water regularly to keep bristle clean.
