Natural Response

2 Bottles

11oz/330ml

Fast Flow Nipple

6m+

SCY906/02

## Supports baby's individual drinking rhythm

### A nipple that works like a breast

The Natural Response Nipple releases milk only when baby actively drinks. Babies can drink, swallow and breathe using their natural rhythm, like on the breast. Making it easy to combine breast and bottle feeding.

#### Easy to combine breast and bottle feeding

- Nipple releases milk when baby actively drinks
- Natural latch on with breast-shaped nipple

#### Other benefits

- No-drip nipple design prevents spills and lost milk

#### Other benefits

- Same products, new navigation
- Choose the right nipple flow for your baby
- Compatible across the Philips Avent range
- Easy to hold even for little hands
- Simple to use, easy to clean and quick to assemble
- Natural Response Nipples and Bottles are BPA free\*
- Be patient as baby adjusts

#### Vents air away from your baby's tummy

- Designed to reduce colic and discomfort

## Highlights

### Natural Response Nipple

The Natural Response Nipple works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The nipple has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

### Natural latch on

The wide, soft and flexible nipple is designed to mimic the shape and feel of a breast, helping baby to latch on and feed comfortably.

### Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

### No-drip nipple

The nipple opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

### Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

### Same products, new navigation

We have moved to a pace-based flow navigation system. Start with the nipple that comes with the bottle. Try a lower flow if milk is leaking from baby's mouth or baby is gulping. Try a higher

flow if baby is playing with the nipple instead of drinking or seems frustrated. As we make this update, you may receive either style of pack.

### Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

### Easy to hold

The ergonomic bottle is easy to grip at any angle to give maximum comfort during feeding. Easy for your hands and tiny hands to hold.

## Highlights

### Compatible across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it.

### BPA free\*

The Philips Avent Natural bottles and nipples are made of BPA free\* material.

### Be patient as baby adjusts

Our new Natural Response Baby Bottles are different from free-flow baby bottles. Just like breastfeeding, it could take a few tries to get it right. That's perfectly natural.
