# Highlights

## Unique OneBlade Technology

Philips OneBlade has a revolutionary technology designed for facial grooming. It can shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (12000x per min) so it's efficient – even on longer hairs.

## Innovative 360 Blade

The innovative 360 Blade can flex in all directions to adjust to the curves of your face. The design enables constant skin contact and control. Easily trim and shave hard-to-reach areas — with few strokes and great comfort.

## Trim away

Unique open comb design for an efficient trim without clogging and interrupting your routine – even on long and thick hair.

## Shave it off

OneBlade doesn't shave as close as traditional blade – so your skin stays comfortable. Go against the grain and shave off any length of hair easily.

## Dual-sided blade

OneBlade follows the contours of your face, allowing you to easily and comfortably trim and shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

## USB-A charging

Can be charged at home or on the road, perfect for your daily routine and for travel.

## Blade that doesn't fade easily

Stainless steel blade that lasts up to 4 months of use\*\* to keep that fresh feel. When the eject icon will appear on the blade, the blade performance may no longer be optimal. It is time to consider changing the blade for the best shaving experience

## Wet & dry

OneBlade is fully waterproof, so it is easy to clean: just rinse it under the tap. You can shave wet or dry, even in the shower – whichever you prefer. No shaving foam needed.

## Long lasting battery

Rechargeable Li-Ion battery delivers 60 minutes of constant shaving power after a 4 hour charge.
