Ease of cleaning and maintaining

- Easy cleaning thanks to dishwasher-safe parts
- Cutting-edge design with stainless steel finish

Set the beverages to suit your taste

- Save your favorite coffee settings
- Avoid heat loss and fit every cup with our adjustable spout
- Play with the coffee's richness with our adjustable grinders

 **Saeco**

Highlights

Stainless steel

The cutting-edge design of your Saeco espresso machine is rounded off by the stainless steel finish. The stainless steel provides a high quality look and will be a highlight on your kitchen counter tops. It also gives greater resistance for a long-lasting performance.

Quick heat boiler

The Saeco quick heat boiler technology ensures your machine is always ready. Now you won't have to wait between brewing each espresso, but can prepare coffee after coffee.

Adjustable spout

The adjustable spout on our espresso machines will fit every cup and thus prevents the coffee splashing or cooling down while pouring in your cup. This way your espresso is always served at the right temperature while maintaining a clean machine.

100% ceramic grinders

This espresso machine is equipped 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean for an impeccable espresso. Ceramic also ensures long-lasting performance and a totally silent operation.

Saves your coffee settings

You will always get a perfect cup of espresso brewed just for you, according to your personal preference, thanks to our innovative memo function to adjust the coffee length, strength and temperature. Enjoy a superb coffee drink in your favorite cup with just the press of a button.

Dishwasher-safe parts

For your convenience, you can put the Saeco's drip tray and milk frother or milk carafe in the dishwasher. This will save time and ensure a hygienic cleaning.
