- Delicious milk froth thanks to the classic milk frother

Easy to use

- Cup warmer
- Ergonomic in day-by-day operations
- Touch screen
- Auto-lift drip tray for ultimate convenience

 **Saeco**

Highlights

Coffe Customization

With Saeco you can always easily select the coffee length, intensity, temperature and strength you prefer. Your personal settings are memorized so you can enjoy your favourite coffee at the touch of a button.

SBS (Saeco Brewing System)

Saeco automatic espresso machine exclusively allows you to adjust your espresso's intensity, altering the crema and body structure as it is dispensed. Simply by turning the knob you can prepare the crema exactly according to your taste. A little knob that makes a big difference.

Cup warmer

This feature allows you to not only store your espresso cups and glasses right on the espresso machine, it also pre-heats them letting the aroma unfold even better and guaranteeing a long-lasting crema

Auto-lift drip tray

Gaggia's patented automatically adjustable drip tray will make every cup size fit under your Espresso machine.

Touch screen

Touch screen user interface - amber color

Classic milk frother

This Saeco espresso machine comes with the classic milk frother that baristas call a "Pannarello". It dispenses steam and is immersed in milk to prepare gorgeous milk foam. Unleash your inner barista by preparing your delicious milk specialties the traditional way!

Ergonomy

Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.
