Highlights

Regional Code for BD/DVD Discs

Blu-ray Discs playback with resolutions up to 5 times greater than DVDs. *Plays only region A discs (North America, South America, U.S. Territories, Japan, South Korea, Taiwan). Bring movies to life by upscaling standard DVDs through HDMI to high definition 1080p resolution.*Plays only region 1 discs (United States, U.S. territories and Canada).

Blu-ray Disc Playback

Blu-ray Discs have the capacity to carry high-definition data and pictures in 1920x1080 high-definition resolution for clearer, sharper images.

DVD Video Playback

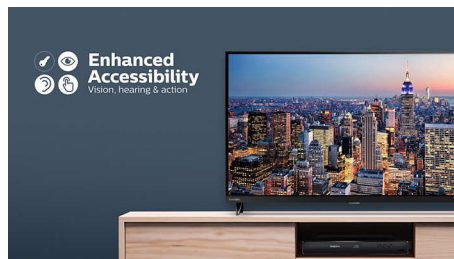

HDMI 1080p upscaling delivers images that are crystal clear. DVD movies in standard definition can now be enjoyed in high-definition resolution.

EasyLink - Less Remotes Needed

With Easylink, only one remote control is needed to operate the main functionalities on your TV and BD Player.

Enhanced Accessibility

Enhanced Accessibility enabled products provide a more user friendly experience for

visually and hearing impaired people to enjoy Philips televisions and home video players. With features such as a voice guide menu, easy to read and navigate user interface, raised guide dots on key remote control buttons and large format support information so visually impaired people can reach customer care; Philips cares about accessibility and wants everyone to enjoy television.

HDMI connectivity

Bring true cinema experience into your living room with 24 frames-per-second video. Original films are all recorded at this frame rate, providing an ambience and image texture that is so unique. Philips Blu-ray Disc players are equipped to bring you 24fps directly from Blu-ray Discs - thus giving you sensational cinema-like high definition images that will astound you.

Bonus View

With Bonus View, you can enjoy picture-in-picture with audio choices. A second smaller window - which runs a separate video sequence, appears over the main picture. You can then choose whether you want to listen to what's going on in the smaller window or in the larger one. This allows you to enjoy many special features that are often included in Blu-ray Disc movies. For example, you can watch and listen to the director's comments in the smaller window, whilst he points to scenes or actors in the main picture.
