# Secure your valuables

With multi-layered protections

Philips SBX601 supports fingerprints, PIN codes and mechanical keys, making unlocking impressively convenient and efficient. With 'Dual Authentication Mode' and its one-piece cabinet, it offers a highly secure space for your valuables.

#### Smarter, more secure

- Allow fast and convenient unlocking
- Take security one step further

#### High quality ensures reliability

- Leave no hidden risk and give full security

#### Caring details to protect your private space

- Offer bigger storage space
- Give full-time protection

# PHILIPS

# Highlights

## Abnormal alert

SBX601 supports multiple alerts, including vibration alert, false alert, and low-voltage alert. In case of anomalies, the safe will alert you with high-pitch sound alarm, giving your valuables all-day protection.

## Dual authentication

Under the "Dual Authentication Mode", a combination of two sets of codes, either fingerprints or PIN codes, are needed to unlock the safe, an upgraded protection measure to better protect your valuables.

## Multiple unlocking methods

Mechanical key is not the only option to open your safe. Equipped with a semi-conductor sensor and

touch keypad, SBX601 also supports unlocking with fingerprints and PIN codes. Wake up the system with a light touch and have quick identification, safe unlocking has never been so easy and efficient. We also keep unlocking with mechanical key for your use in emergency.

## One-piece cabinet

The one-piece cabinet makes SDR601 solid and secure. The built-in touch keypad gives it a simplistic look and offers better protection to the electronic circuit board. All makes this safe box highly functional, stylish, secure and trustworthy.

## Separate storage sections

With a proper interior layout and the sliding jewelry drawers, the safe is a perfect fit for small valuables like jewelry. The interior is stylish and of high quality, giving the safe soft touch and bringing pleasant storing experience.
