to get the most benefits from your purchase.

Registering your model with Philips makes you eligible for all of the valuable benefits listed below, so don't miss out.
Register online at www.philips.com/support to ensure:

*Product safety notification

By registering your product, you'll receive notification - directly from the manufacturer - in the rare case of a product recall or safety defect.

*Additional benefits

Registering your product guarantees that you'll receive all of the privileges to which you're entitled, including special money-saving offers.

Know these **safety** symbols

The caution marking is located on the rear or bottom of the cabinet.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the apparatus's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the apparatus.

The symbol for CLASS II or double insulated electrical apparatus. This apparatus has been designed in such a way that it does not require a safety connection to electrical earth.

WARNING: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

CAUTION: To prevent electric shock, match wide blade of plug to wide slot, fully insert.

CHILD SAFETY:

PROPER TELEVISION PLACEMENT MATTERS

THE CONSUMER ELECTRONICS INDUSTRY CARES

- Manufacturers, retailers and the rest of the consumer electronics industry are committed to making home entertainment safe and enjoyable.
- As you enjoy your television, please note that all televisions – new and old- must be supported on proper stands or installed according to the manufacturer's recommendations. Televisions that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests, carts, etc., may fall over, resulting in injury.

TUNE IN TO SAFETY

- **ALWAYS** follow the manufacturer's recommendations for the safe installation of your television.
- **ALWAYS** read and follow all instructions for proper use of your television.
- **NEVER** allow children to climb on or play on the television or the furniture on which the television is placed.
- **NEVER** place the television on furniture that can easily be used as steps, such as a chest of drawers.
- **ALWAYS** install the television where it cannot be pushed, pulled over or knocked down.
- **ALWAYS** route cords and cables connected to the television so that they cannot be tripped over, pulled or grabbed.

WALL OR CEILING MOUNT YOUR TELEVISION

- **ALWAYS** contact your retailer about professional installation if you have any doubts about your ability to safely mount your television.
- **ALWAYS** use a mount that has been recommended by the television manufacturer and has a safety certification by an independent laboratory (such as UL, CSA, ETL).
- **ALWAYS** follow all instructions supplied by the television and mount manufacturers.
- **ALWAYS** make sure that the wall or ceiling where you are mounting the television is appropriate. Some mounts are not designed to be mounted to walls and ceilings with steel studs or cinder block construction. If you are unsure, contact a professional installer.
- Televisions can be heavy. A minimum of two people is required for a wall or ceiling mount installation.

MOVING AN OLDER TELEVISION TO A NEW PLACE IN YOUR HOME

- Many new television buyers move their older CRT televisions into a secondary room after the purchase of a flat-panel television. Special care should be made in the placement of older CRT televisions.
- **ALWAYS** place your older CRT television on furniture that is sturdy and appropriate for its size and weight.
- **NEVER** place your older CRT television on a dresser where children may be tempted to use the drawers to climb.
- **ALWAYS** make sure your older CRT television does not hang over the edge of your furniture.

Consumer Technology
Association™

Important safety instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments / accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.

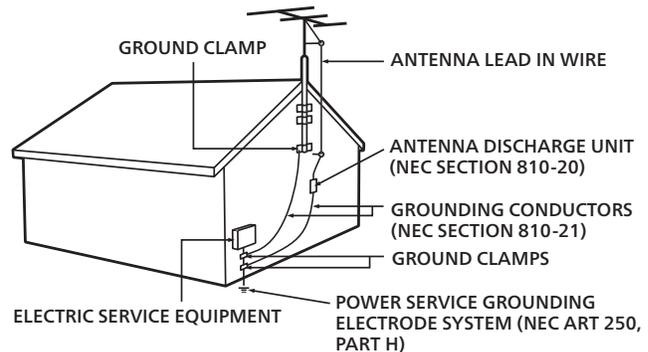

14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Note to the CATV system installer:

This reminder is provided to call the CATV system installer's attention to Article 820 of the NEC, ANSI/NFPA 70 and Section 54 of the CEC, Part I that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

Example of antenna grounding as per NEC - National Electric Code

If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the NEC, ANSI/NFPA 70 and Section 54 of CEC, Part I provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead in wire to an antenna-discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

Wall mount bracket kit

	Brand	Model #	Screw dimension	VESA size
65PUL7472/F7	SANUS	VLT6-B1	M6 x 1.378 " (35 mm)	15.75 " x 11.81 "
55PUL7472/F7				11.81 " x 11.81 "
				(400x300mm)
				(300x300mm)

- Your TV meets the VESA standard for wall mounting. Consult with your local dealer for a wall mount bracket which is compatible with your TV model.
- The recommended wall mount bracket kit (sold separately) allows the mounting of the TV on the wall.
- For detailed information on installing the wall mount, refer to the wall mount Instruction book.
- Funai Corporation is not responsible for any damage to the product or injury to yourself or others if you elect to install the TV wall mount bracket or mount the TV onto the bracket.
- The wall mount bracket must be installed by experts.

Funai Corporation is not liable for these types of accidents or injuries noted below.

- If installed onto a ceiling or slanted wall, the TV and wall mount bracket may fall which could result in a severe injury.
- Do not use screws that are longer or shorter than their specified length. If screws too long are used this may cause mechanical or electrical damage inside the TV set. If screws too short are used this may cause the TV set to fall.
- Do not fasten the screws by excessive force. This may damage the product or cause the product to fall, leading to an injury.
- For safety reasons use 2 people to mount the TV onto a wall mounting bracket.
- Do not mount the TV onto the wall mounting bracket while your TV is plugged in or turned on. It may result in an electrical shock injury.

When installing the unit on the wall, allow this much space.

Top	: 11.8 " (30 cm)
Left and right side	: 5.9 " (15 cm)
Bottom	: 3.9 " (10 cm)

Funai Corporation reserves the right to change products at any time without being obliged to adjust earlier supplies accordingly.

The material in this Owner's manual is believed adequate for the intended use of the system. If the product or its individual modules or procedures are used for purposes other than those specified herein, confirmation of their validity and suitability must be obtained. Funai Corporation warrants that the material itself does not infringe any United States patents. No further warranty is expressed or implied.

Funai Corporation cannot be held responsible neither for any errors in the content of this document nor for any problems as a result of the content in this document. Errors reported to Funai Corporation will be adapted and published on the Funai Corporation support website as soon as possible.

Pixel characteristics

This LCD product has a high number of color pixels. Although it has effective pixels of 99.999 % or more, black dots or bright points of light (red, green or blue) may appear constantly on the screen. This is a structural property of the display (within common industry standards) and is not a malfunction.

Warranty

No components are user serviceable. Do not open or remove covers to the inside of the product. Repairs may only be done by service centers and official repair shops. Failure to do so shall void any warranty, stated or implied.

Any operation expressly prohibited in this manual, any adjustments or assembly procedures not recommended or authorized in this manual shall void the warranty.

Federal communications commission notice

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

Declaration of conformity

Trade name : PHILIPS
 Responsible party : Funai Corporation, Inc.
 Model : 65PUL7472/F7, 55PUL7472/F7
 Address : 12489 Lakeland Road, Santa Fe Springs, CA 90670, USA*
 Telephone number : 1 866 309 5962

* This is not the mailing address for Open Source Software or Customer service.

Modifications

This apparatus may generate or use radio frequency energy. Changes or modifications to this apparatus may cause harmful interference.

Any modifications to the apparatus must be approved by Funai Corporation.

The user could lose the authority to operate this apparatus if an unauthorized change or modification is made.

Cables

Connections to this device must be made with shielded cables with metallic RFI / EMI connector hoods to maintain compliance with FCC Rules and regulations.

Canadian notice

CAN ICES-3 (B) / NMB-3 (B)

Analog and digital television receiving apparatus, Canada BETS-7 / NTMR-7.

The following FCC/IC RSS applies to the wireless LAN adapter included in this product.

FCC caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

FCC/IC RF Exposure Compliance

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules.

This equipment should be installed and operated keeping the radiator at least 20 cm or more away from your body.

This device complies with Part 15 of FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device.

5150-5250 MHz band is restricted to indoor operations only.

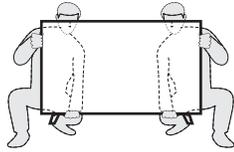

High-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.

Compliance with FCC requirement 15.407(c) and IC requirement RSS-210A9.4.4

Data transmission is always initiated by software, which is then passed down through the MAC, through the digital and analog baseband, and finally to the RF chip. Several special packets are initiated by the MAC. These are the only ways the digital baseband portion will turn on the RF transmitter, which it then turns off at the end of the packet. Therefore, the transmitter will be on only while one of the aforementioned packets is being transmitted. In other words, this device automatically discontinues transmission in case of either absence of information to transmit or operational failure.

Positioning the TV

- Large screen TVs are heavy. 2 people are required to carry and handle a large screen TV.
- Make sure to hold the upper and bottom frames of the unit firmly as illustrated.
- Install the unit in a horizontal and stable position.
- Do not install the unit in direct sunlight or in a place subject to dust or strong vibration.
- Depending on the environment, the temperature of this unit may increase slightly. This is not a malfunction.
- When installing this unit in a temperate environment, avoid a place with rapid temperature changes.
 - Operating temperature: 41 °F (5 °C) to 104 °F (40 °C)
- This unit should not be used in a tropical environment as it has not been evaluated under such conditions.
- No objects should be placed directly on or under this unit, especially lighted candles or other flaming objects.
- Depending on your external devices, noise or disturbance of the picture and/or sound may be generated if the unit is placed too close to them. In this case, please ensure enough space between the external devices and the unit.
- Do not insert the AC power cord into the power socket outlet before all the connections are made.
- Ensure that you always have easy access to the AC power cord and outlet to disconnect the TV from the AC outlet.
- Before you move the TV, disconnect attached cables to prevent damage to connectors, especially the TV tuner.
- Be sure to unplug the AC power plug from the AC outlet before moving or carrying the unit.
- When moving the TV and then setting it down, please be careful not to pinch the AC power cord under the unit.
- Do not place this unit in an area where it may be exposed to water, oil or grease such as:
 - near a bathtub, basin, kitchen sink, washing tub, swimming pool, kitchen exhaust fan, etc., or in a damp basement.

Do not place the unit on the furniture that is capable of being tilted by a child and an adult leaning, pulling, standing or climbing on it. A falling unit can cause serious injury or even death.

In order to avoid interruption of ventilation, this unit should not be placed in built-in equipment such as a book cabinet, rack, etc., and the vents of this unit should not be covered with anything such as a tablecloth, curtain, newspaper, etc. Make sure that there is enough ventilation space (4" / 10 cm or more) around this unit.

Regulatory notices

WARNING: To prevent injury, this apparatus must be securely attached to the furniture / wall in accordance with the instructions. Tipping, shaking or rocking the unit may cause injury / death.

Stability Hazard

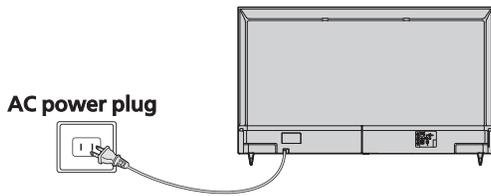

A television set may fall, causing serious personal injury or death.

Never place a television set in an unstable location. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Always use cabinets, stands or mounting instruction recommended by the manufacturer of the television set.
- Always use only furniture that can safely support the television set.
- Always ensure the television set is not overhanging the edge of the supporting furniture.
- Always educate children about the dangers of climbing on furniture to reach the television set or its controls.
- Certainly wire the cords and cables connected to television set that cannot be routed, pulled and pinched.
- Not placing the television set on unstable place.
- Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
- Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
- Not placing anything such as toys or controls that tempts children on a TV or furniture which a TV is placed.

If the existing television set is going to be retained and relocated, the same considerations as above should be applied.

Press **⏻ (POWER)** to turn the unit on and go into standby mode. To completely turn off the unit, you must unplug the AC power plug from the AC power outlet. Disconnect the AC power plug to shut the unit off when trouble is found or not in use. The AC plug shall remain readily available.

Never use a gas duster on this TV. The gas trapped inside of this unit may cause ignition and explosion.

Environmental care

The packaging of this product is intended to be recycled. Contact your local authorities for information about how to recycle the packaging.

For product recycling information, please visit - www.recycle.philips.com

End of life directives

Philips pays a lot of attention to produce environmental-friendly products in green focal areas. Your new TV contains materials which can be recycled and reused. At the end of its life, specialized companies can dismantle the discarded TV to concentrate the reusable materials and to minimize the amount of materials to be disposed of. Please ensure you dispose of your old TV according to local regulations.

⚠ Batteries usage

CAUTION : Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

WARNING: Batteries (battery pack or battery installed) should not be exposed to excessive heat such as sunshine, fire or the like.

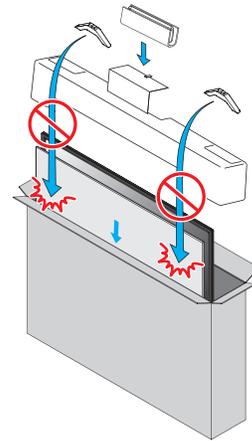

- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (ni-cad, ni-mh, Li-ion, etc.) batteries.

Disposal of used batteries

The batteries included do not contain the heavy metals mercury and cadmium, however in certain localities, disposing batteries with household waste is not permitted. Please ensure you dispose of batteries according to local regulations.

Preparing to move / ship the unit

Please pack the unit properly by following the diagram on the carton.

CAUTION : Please save the front cardboard* to use when moving or shipping the TV.

CAUTION : To avoid damage to the screen, do not pack the stand on the same side as the TV screen, refer to the illustration above.

* Cardboard is included select models only.

Some features may require an always-on broadband internet connection, firmware update and/or a minimum bandwidth. Internet services vary by location.

2 Getting started

Features

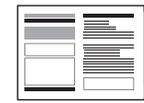

- Google Assistant™ on Android TV™**
 Press the Google Assistant button on your remote to do more on your TV with your voice. Ask Google to search for the latest blockbuster, stream shows, or open multiplayer games. Have it dim the lights by connecting smart home devices. Manage tasks and see your calendar. Or ask it questions and see the answers on your TV.
- Google Play**
 Google Play is your entertainment unbound. It brings together all of the entertainment you love and helps you explore it in new ways, anytime, anywhere. We've brought the magic of Google to music, movies, TV, books, magazines, apps and games, so you get more from your content every day.
- DTV / Analog TV / CATV**
 You can use your remote to select channels which are broadcast in digital format and conventional analog format. Also, cable and satellite subscribers can access their TV channels.
- Information display**
 You can display on the TV screen the title, contents (DTV only) and other information on the current program.
- Autoprogram**
 This unit automatically scans and memorizes channels available in your area, eliminating difficult setup procedures.
- Parental controls**
 This feature allows you to block children's access to inappropriate programs.
- Closed caption decoder**
 Built-in closed caption decoder displays text for closed caption supported programs.
- MTS / SAP tuner**
 Audio can be selected from the remote.
- Auto standby**
 If there is no input signal and no operation for 15 minutes, the unit will go into standby mode automatically.
- Sleep timer**
 You can set the unit to go into standby mode after a specific amount of time.
- Choices for on-screen language**
 Select your on-screen language: English, Spanish or French.
- Stereo sound function**
- Various adjustments for picture and sound**
 Customizes picture quality suitable for your room and sets your sound preference.
- HDMI control**
 HDMI control allows your other HDMI link devices to be controlled by the HDMI cable connected to your TV.
- HDMI input**
- HDMI-DVI input**
 If your video device has a DVI output jack, use an HDMI-DVI conversion cable to connect the unit.
- AV input**
 Audio and video input from an external device.
- Digital audio output**
- Headphone audio output**
 Headphone 3.5 mm stereo jack for personal listening.

Included accessories

Quick start guide

Safety instruction / Limited warranty

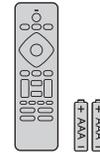

Caution sheet

TV base and screws *

Remote and Batteries (AAA, 1.5 V x 2)

* Screws packed with this unit.

Model	Quantity	Size
65PUL7472/F7, 55PUL7472/F7	4	M4 x 0.709 " (18 mm)

Note(s)

- If you lose the screws, please purchase the above-mentioned phillips head screws at your local store.
- If you need to replace these accessories, please refer to the part name or No. with the illustrations and call our toll free customer support line found on the cover of this user manual.

When using a universal remote to operate this unit.

- Make sure the component code on your universal remote is set to our brand. Refer to the instruction book accompanying your remote for more details.
- We do not guarantee 100% interoperability with all universal remote.

Symbols used in this user manual

The following is the description for the symbols used in this user manual. Description refers to:

Digital TV operation

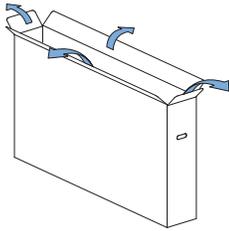

Cable / NTSC (Analog) TV operation

- If neither symbol appears, the operation is applicable to both.

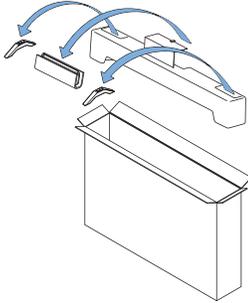

Unpacking

Cover a table top with a cloth or blanket to avoid damage to the TV screen. Hold both sides of the TV set to place on the table.

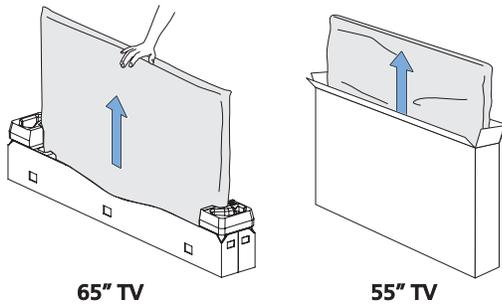

- 1 Open the top flaps of the box.

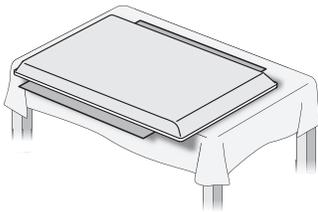

- 2 Remove all accessories.

- 3

- 4

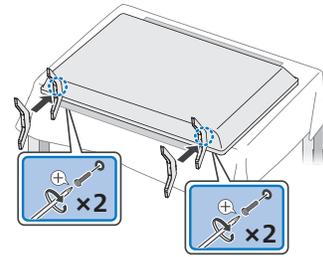

Note(s)

- Carefully lay the TV set, with the screen side down, on the front cardboard as shown in the figure.

Installing the stands

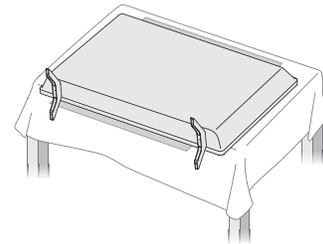

- 1 Fasten the stand to the TV with 4 screws.

Note(s)

- While fastening the screws, hold the stand to prevent it from falling.

- 2 Both stands should now be securely fastened.

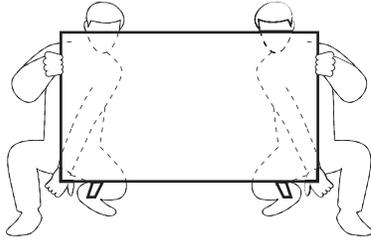

Note(s)

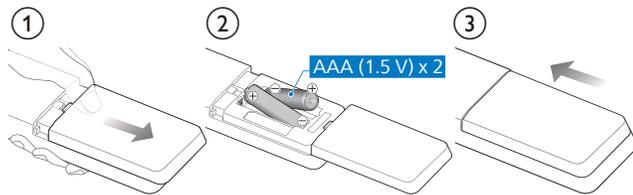

- A wide open space is recommended for assembly.
- A Phillips-head screwdriver is required to fasten the stands to the TV set.
- When attaching the stand, ensure that all screws are tightly fastened. If the stand is not properly attached, it could cause the unit to fall, resulting in injuries as well as damage to the unit.
- To remove the stand from this unit, unscrew the phillips-head screws by reversing the procedure. Be careful not to drop the stand when you remove it.

Lifting the TV set

Carefully lift the TV set as shown in the illustration and place it onto a stable, level surface.

Installing the Batteries

- 1 Open the battery cover by firmly sliding down.
- 2 Insert 2 AAA (1.5 V) batteries matching the polarity indicated inside battery compartment of the remote.
- 3 Slide the cover back into position.

! Caution(s)

- For remote that have the battery cover on the front, please take care to slide the cover down BEFORE lifting it off to prevent accidentally breaking the tabs that hold it in place.

≡ Note(s)

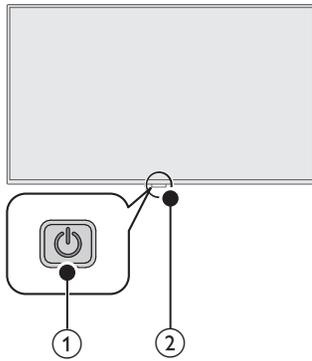

- Remove the batteries if not using the remote for an extended period of time.

Remote

- ① **Microphone**
- ② **⏻ (POWER)**
Turn the TV on/off into Quick Start Standby. Holding the button for 1 second or more will put the TV into Low Power Standby.
- ③ **📺 (TV GUIDE)**
Access to the Electronic Program Guide (EPG).
- ④ **🗣️ (Google Assistant)**
Press the Google Assistant button on your remote to ask Google.
- ⑤ **⬅️ (BACK)**
Returns to the previous menu screen.
- ⑥ **VOL + / -**
Adjusts the volume.
- ⑦ **🔇 (MUTE)**
Turns the sound on and off.
- ⑧ **PREV.CH**
Direct access to the Live TV channels.
Displays the last selected terminal or channel.
- ⑨ **☰ (OPTIONS)**
Displays a list of menu options applicable to the active screen.
- ⑩ **OK**
Press to decide the command of setting when the Home menu is displayed.
- ⑪ **▲▼◀▶ (NAVIGATION buttons)**
Moves the cursor, selects the on-screen menu items.
- ⑫ **🏠 (HOME)**
Access to your apps, Live TV, input devices, settings, and the Google Play Store.
- ⑬ **📺 (INPUT)**
Change input source.
Select and change access to the attached devices such as Blu-ray player, gaming consoles, or cable box.
- ⑭ **CH + / -**
Selects a channel.
- ⑮ **COLOR buttons**
Works as direct access to user specified net apps.

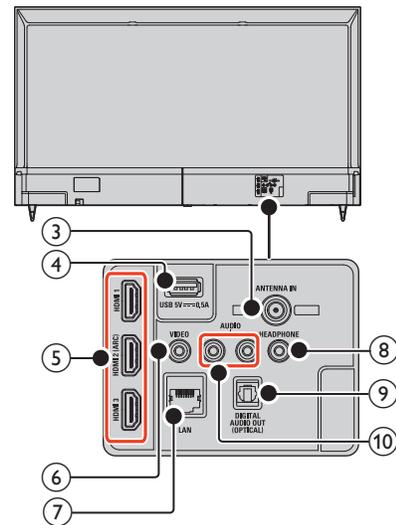

Control panel

* Power button is located at the bottom side of the TV

- ① **⏻ (POWER)**
Turns the TV on and off.
- ② **Remote control sensor**

Terminals

- ③ **75 ohm Cable / Antenna connection**
Signal input from an antenna or Cable / Satellite set-top boxes.
- ④ **USB terminal**
Data input from USB memory stick only.
- ⑤ **HDMI input jack(s)**
Digital audio and video input from high definition digital devices such as DVD / Blu-ray Disc™ players, Soundbar / cable / satellite set-top boxes, PC's, etc.
 - HDMI-DVI / Analog audio (L/R) jacks signal
 - Composite video / Analog audio (L/R) jacks signal
 - PC connection / Analog audio (L/R) jacks signal with stereo mini 3.5 mm plug audio cable on PC

* For HDMI 2 only : In addition to normal HDMI functionality, it outputs TV audio to an HDMI-ARC compliant device, such as a soundbar and home theater system.
- ⑥ **Composite video (VIDEO) input jack**
Connect composite analog video signal.
- ⑦ **Ethernet port**
For internet connection using an Ethernet cable with an RJ-45 connector.
- ⑧ **Headphone audio output jack**
Headphone 3.5 mm stereo jack for personal listening.
- ⑨ **Digital audio output (Optical) jack**
Digital audio (SPDIF) output to home theaters and other digital audio systems.
- ⑩ **Analog audio (L/R) input jacks**
Connect analog audio signals from;
 - HDMI-DVI / Analog audio (L/R) jacks signal
 - Composite video / Analog audio (L/R) jacks signal
 - PC connection / Analog audio (L/R) jacks signal with stereo mini 3.5 mm plug audio cable on PC

☰ Note(s)

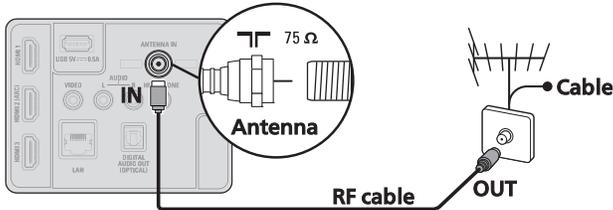

- This TV has a USB port which is designed for connecting peripheral devices, such as a keyboard or mouse. While you may find that a particular keyboard or mouse works to some extent, we cannot guarantee full functionality. You will not damage the TV in any way by trying various keyboards or mice, but the performance of that device may be limited.

Connecting antenna or cable / satellite / IPTV set-top box

Be sure your antenna or another device is connected properly before plugging in the AC power cord.

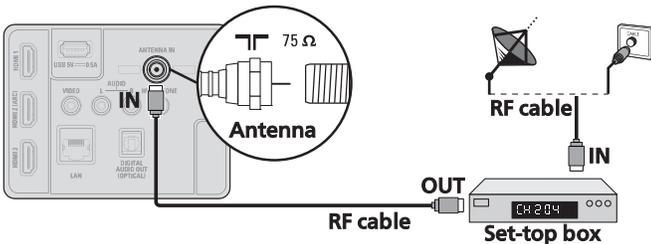

If connecting to an antenna through an RF cable

Any DTV programs that are broadcast in your area can be received for free through an antenna connection.

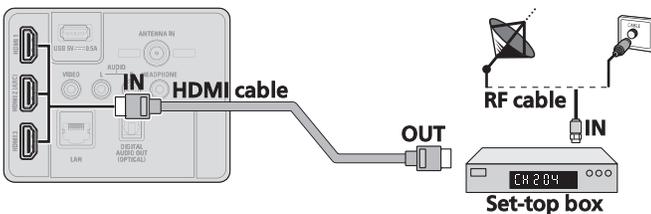

If connecting cable / satellite / IPTV set-top box using an RF cable

If the TV is connected to a cable / satellite set-top box via a coaxial connection, set the TV to channel 3/4 or the channel specified by the service provider.

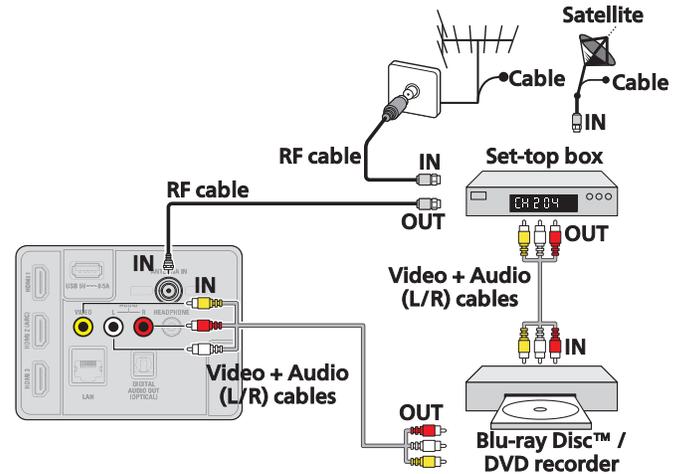

If connecting cable / satellite / IPTV set-top box using an HDMI cable

If the TV is connected to a cable / satellite set-top box via an HDMI cable, make sure you select the correct source by using  (INPUT).

Connecting a cable / satellite / IPTV set-top box, Blu-ray Disc™ / DVD recorder via composite connectors and analog audio

Do not place your recorder too close to the screen because some recorders can be susceptible to harmful interference from the TV.

Note(s)

- If you have any question about the DTV's antenna, visit www.antennaweb.org for further information.
- Depending on your antenna system, you may need different types of combiners (mixers) or separators (splitters) for HDTV signal. The minimum RF bandpass on these devices is 2,000 MHz or 2 GHz.
- For your safety and to avoid damage to this unit, please unplug the RF coaxial cable from the antenna input jack before moving the unit.
- If you did use an antenna to receive analog TV, it should also work for DTV reception. Outdoor or attic antennas will be more effective than a set-top box or inside antenna.
- To turn on your reception source easily between antenna and cable, install an antenna selector.
- If you are not receiving a signal from your cable service, contact the cable provider.

Plugging in the AC power cord

Make sure that the AC power cord must be plugged to an AC outlet after all the necessary connections are made.

! Caution(s)

- Connect the analog audio signal cables from the external device to the analog audio L/R input jacks.
- If you have an amplifier, connect the HDMI cable to the HDMI input via your amplifier.

Note(s)

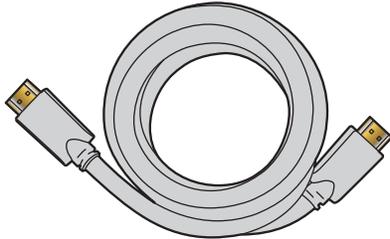

- Each time you plug in the AC power cord, no operations will be performed for several seconds. This is not a malfunction.

No included cables are used with these connections:

- Please purchase the necessary cables at your local store.

Before you connect the AC power cord:

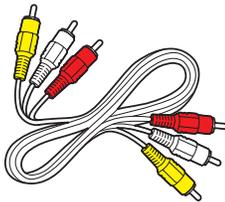

Be sure other devices are connected properly before plugging in the AC power cord.

Selecting your connection quality**HDMI - Highest quality**

Supports high-definition digital signals and gives highest picture and sound quality. Video and audio signals are combined in one cable. You must use HDMI for full high-definition video and to enable HDMI control (HDMI CEC).

Note(s)

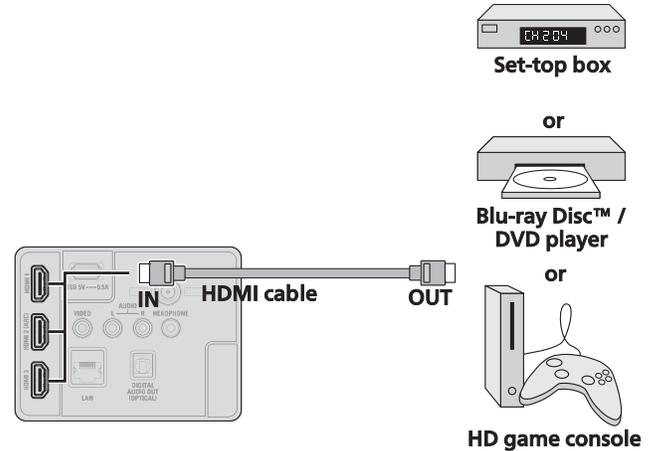

- Philips HDMI supports HDCP (High-bandwidth Digital Contents Protection). HDCP is a form of digital rights management that protects high-definition content in Blu-ray Disc™ or DVDs.
- The HDMI-ARC connector on the TV features HDMI-ARC functionality. This allows output of TV audio to an HDMI-ARC-compliant device.

Composite - Basic quality

For analog connections. Composite video / Audio analog cable usually combine a yellow video cable with red / white audio (L/R) cables.

Connecting your devices**HDMI digital connection**

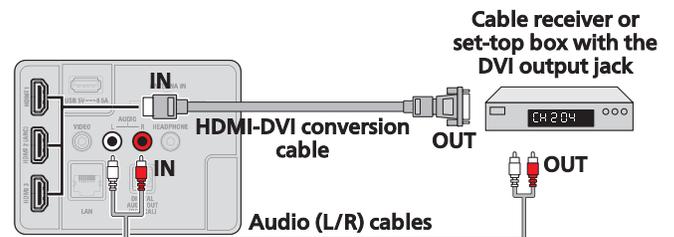

HDMI connection offers the highest picture quality. HDMI (High-Definition Multimedia Interface) transports high-definition digital video and multi-channel digital audio through a single cable.

**Note(s)**

- If there are issues with picture/color and/or sound when connecting an external device using the HDMI port, please try switching the **HDMI EDID Version**. (Refer to **HDMI EDID Version** → p. 17)
- Some HDMI cables and devices may not be compatible with the TV due to different HDMI specifications.
- Use an HDMI cable with the HDMI logo (a certified HDMI cable). High speed HDMI cable is recommended for the better compatibility.
- The unit accepts 480i / 480p / 720p / 1080i, 1080p, 2160p 24/30/60 Hz of video signals, 32 kHz / 44.1 kHz and 48 kHz of audio signals.
- This unit accepts LPCM, AC-3, DD+ audio signal.
- This unit accepts only signals in compliance with CTA-861-G.

HDMI-DVI connection

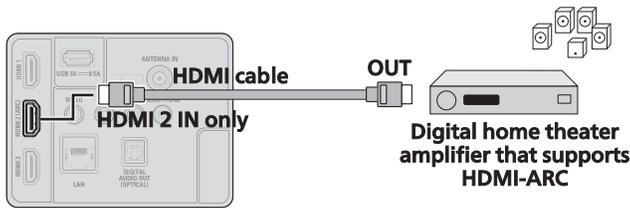

This unit can be connected to a device that has a DVI terminal. Use an HDMI-DVI conversion cable for this connection and it requires audio cable for analog audio signal as well.

**Note(s)**

- Some HDMI cables and devices may not be compatible with the TV due to different HDMI specifications.
- Use an HDMI cable with the HDMI logo (a certified HDMI cable). High speed HDMI cable is recommended for the better compatibility.
- The unit accepts 480p, 720p, 1080p and 2160p video signals. When connecting with HDMI-DVI, the operation is maximum 2160p@30 Hz.
- HDMI-DVI connection requires separate audio connections as well and the audio signals are output as analog (L/R) audio.
- DVI does not display 480i image which is not in compliance with CTA-861-G.

HDMI-ARC connection

HDMI-ARC allows you to use HDMI control to output TV audio directly to a connected audio device, without the need for an additional digital audio cable.

Note(s)

- The HDMI 2 connector is HDMI Audio Return Channel (ARC) compliant. Use it to output digital audio to an HDMI home theater system.
- Be sure that the device is HDMI CEC and ARC compliant and that the TV is connected to the device using an HDMI cable attached to HDMI-ARC connectors.

HDMI EDID Version

If there are issues with picture/color and/or sound when connecting an external device using the HDMI port, please try switching the HDMI mode following the instructions below.

- 1 Press **INPUT** to switch input device list.
- 2 Press **OPTIONS** on your remote and navigate to **Settings** and press **OK**.
- 3 Select **Device Preferences** and press **OK**.
- 4 Select **Inputs** and press **OK**.
- 5 Select **HDMI EDID Version** and press **OK**.

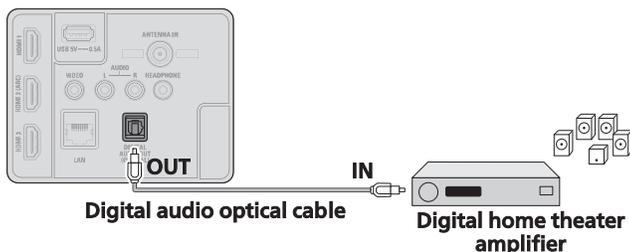

Note(s)

- EDID 1.4 is used for legacy devices that can output in 2K or 4K @30 Hz. EDID 2.0 is used for modern devices that can output 4K @ 60 Hz and 4K with HDR 10.

Digital audio output connection

If you connect this unit to an external digital audio device, you can enjoy multi-channel audio like 5.1ch digital broadcasting sound.

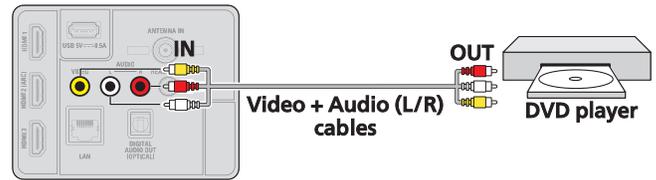

Use a digital audio optical cable to connect the unit to external digital audio devices.

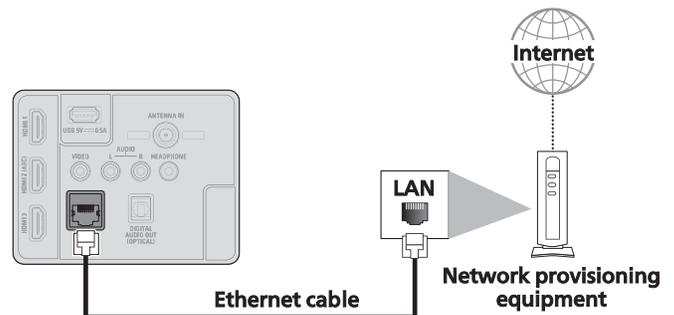

Composite analog video connection

Composite analog video connection offers standard picture quality for video devices connected to the unit.

If you connect to the unit's composite video (VIDEO) input jack, connect audio cables to the audio (L/R) input jacks. When the audio is monaural, then only connect to the audio L input jack.

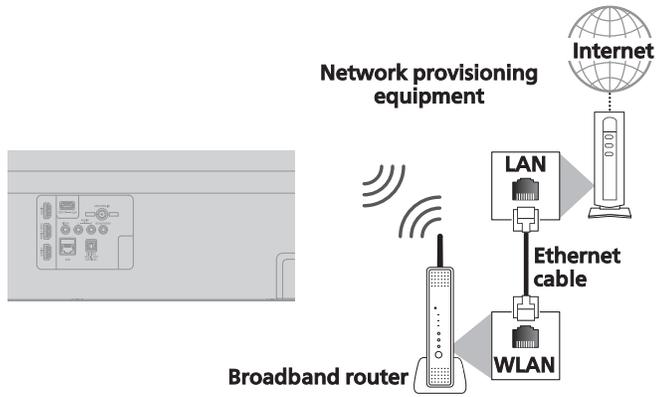

Connecting the TV to the internet using an Ethernet cable

Note(s)

- Please purchase shielded Ethernet cables at your local store and use them when you connect to network equipment.
- After connecting an Ethernet cable, set up necessary network settings. **Network & Internet** → p. 25
- Do not insert any cable other than an Ethernet cable to the Ethernet port to avoid damaging the unit.
- If your telecommunications equipment (modem, etc.) does not have broadband router functions, connect a broadband router.
- If your telecommunications equipment (modem, etc.) has broadband router functions but there is no vacant port, then add a hub.
- For a broadband router, use a router which supports 10BASE-T / 100BASE-TX.
- Do not connect your PC directly to the Ethernet port of this unit.

Connecting the TV to the internet using a wireless LAN

Note(s)

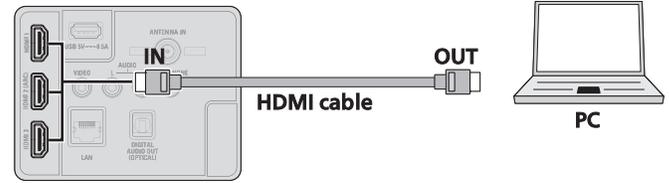

- After you make the wireless connection, set up the necessary network settings. **Network & Internet** → p. 25
- Use a wireless LAN Access Point (AP) (e.g. broadband wireless router) which supports IEEE 802.11 a/b/g/n/ac. (n is recommended for stable operation of the wireless network.)
- This unit does not support Ad-hoc mode.
- Other radio devices or obstacles may cause interference to the wireless network connection.

PC connection

PC content can also be sent to the TV via any Google Chromecast compatible application. See https://store.google.com/product/chromecast_apps for details.

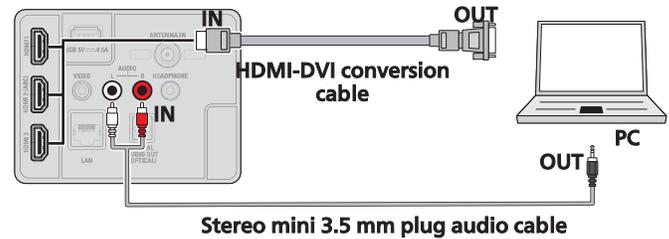

HDMI connection

This unit can be connected to your PC that has an HDMI terminal. Use an HDMI cable for this digital connection.

HDMI-DVI connection

This unit can be connected to your PC that has a DVI terminal. Use an HDMI-DVI conversion cable for this video digital connection and it requires stereo mini 3.5 mm plug audio cable for analog audio signal as well.

The following PC-input video signals can be displayed:

Format	Resolution	Refresh rate
VGA	640 x 480	60 Hz
SVGA	800 x 600	
WXGA	1,024 x 768	
	1,280 x 768	
FHD	1,920 x 1,080	24/30/60 Hz
UHD	3,840 x 2,160	
	4,096 x 2,160	

Other formats or non-standard signals will not be displayed correctly.

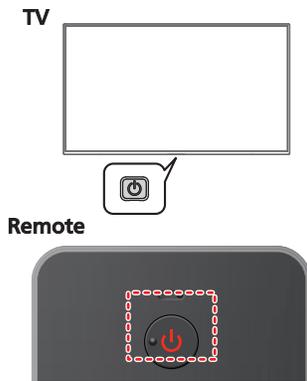

* When connecting with HDMI-DVI, the operation is maximum 2160p@30 Hz.

Note(s)

- Please purchase a HDMI-DVI conversion cable that has a ferrite core.
- The following operations may reduce noise.
 - Attach a ferrite core to the AC power cord of your PC.
 - Unplug the AC power cord and use the built-in battery of your portable / laptop PC.
- Some HDMI cables and devices may not be compatible with the TV due to different HDMI specifications.
- Use an HDMI cable with the HDMI logo (a certified HDMI cable). High speed HDMI cable is recommended for the better compatibility.
- The unit accepts 480p, 720p, 1080p and 2160p video signals only when using the HDMI connection and HDMI-DVI connection. When connecting with HDMI-DVI, the operation is maximum 2160p@30 Hz.
- HDMI-DVI connection requires separate audio connections as well and the audio signals are output as analog (L/R) audio.
- DVI does not display 480i image which is not in compliance with CTA-861-G.

3 Use your TV

Switching on your TV and putting it in standby mode

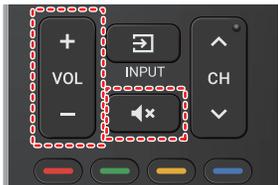

Turns the TV on and off of standby.

- Press **⏻ (POWER)** on the TV or the remote, then TV will go to suspend standby.
- Press and hold **⏻ (POWER)** on the TV or the remote, then TV will go to standby mode completely.

Note(s)

- Energy consumption contributes to air and water pollution. When the AC power cord is plugged in, your TV consumes energy with a very low standby power consumption.

Adjusting volume

To decrease or increase volume

- Press **VOL + / -** on the remote.
VOL + : Volume up
VOL - : Volume down

To mute or unmute sound

- Press **🔇 (MUTE)** on the remote to mute the sound.
- Press **🔇 (MUTE)** again or **VOL + / -** to recover the original sound.

Switching channels

To change channels, you can do any of the following:

- Press **CH + / -** on the remote.
- Press **▲ ▼** on the remote for digital channels only.

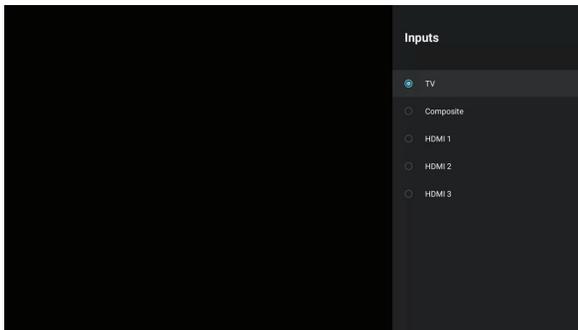

Watching channels from an external device

Switching each input mode can easily switch with the remote between TV and external devices when they are connected to the unit.

- 1 Turn on the set-top box or the connected device.

- 1 Press **INPUT** and use **▲▼** to select the set-top box or the connected device and wait a few seconds till the picture appears.

- 2 Use the remote of the set-top box or the connected device to select channels.

Access the Home menu

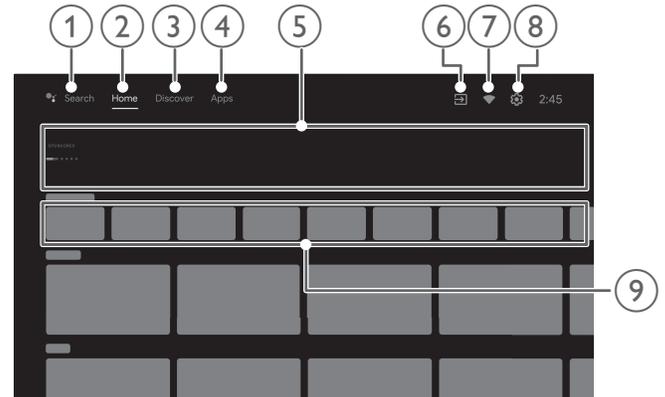

- 1 Press **HOME**.

Guide to Home menu

From the Android TV home screen, you can easily access movies, TV shows, music, apps, input devices, settings, and more.

To go back to the home screen at any time, press **HOME** on your remote.

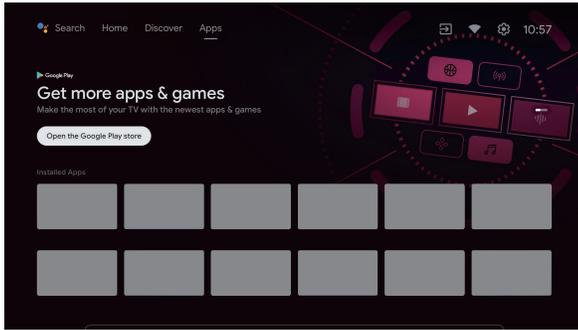

- 1 **Google Assistant** : With Google Assistant, quickly access entertainment, control smart devices, get answer on screen, and more using your voice.
- 2 **Home screen tab**
- 3 **Discover tab** : Recommendations are shown by topic or theme. Recommendations are based on watch history, interests and new trends.
- 4 **Apps tab** : Apps gallery which pre-installed or you installed.
You must sign in with a Google account to visit and download apps from the Google Play store.
- 5 **Highlights** : You can find suggestions of movies and shows to watch which are handpicked by Google Play's entertainment experts or sponsored by media partners.
- 6 **Inputs** : Toggle inputs between your favorite source devices and built-in RF tuner.
- 7 **Network condition** : Display the network status and open network settings if selected.
- 8 **Settings** : Configure your television settings and connect to wireless devices.
- 9 **How to organize your favorite apps** : Select the application and long press **OK** on your remote.
To move,
Select **Move** in the list, and press **OK**.
Use **◀▶** to move left or right.
Press **OK**.
To delete,
Select **Remove from favorites** in the list, and press **OK**.

Apps

You can download the apps.

- 1 Press **HOME** and use **▲▼◀▶** to select **Apps tab**, then press **OK**.

- 2 Select **Open the Google Play store** to open the Google Play Store apps.
- 3 Search for the app or type of app you want to install.
- 4 Select the app.
- 5 Select install.

Google Assistant

Press the Google Assistant button on your remote to do more on your TV with your voice. Ask Google to search for the latest blockbuster, stream shows, or open multiplayer games. Have it dim the lights by connecting smart home devices. Manage tasks and see your calendar. Or ask it questions and see the answers on your TV.

To enjoy all the benefits of Google Assistant, an internet connection and Google account is required. To sign into your Google account, go to **Settings > Accounts & sign-in > Add account**. To learn more about Google Assistant, please visit: <https://assistant.google.com>

How to use Google Assistant with your remote

To use Google Assistant on your remote, make sure that the remote is connected via Bluetooth to the television. To check this, go to **Settings > Remotes & accessories** on your TV.

If the remote is not connected, hold down the Volume (-) and Google Assistant button together for 3 seconds and select "Add accessory" in the menu.

You can start a conversation by simply pressing the Google Assistant button on your remote to ask Google a question or say a command. When activated by button, the Google Assistant dialog bar will appear at the bottom of your television screen.

Privacy protection built-in

The Google Assistant is designed with your privacy in mind. You can delete any voice-command history by pressing Google Assistant button and simply saying "Delete what I just said".

For more details on privacy, please visit: <https://safety.google/intl/en-US>

Microphone

- 1 Activating Google Assistant on the home screen will launch a Google Query.
 - Activating Google Assistant within an app will allow you to search and find information only related to a specific app.
- 2 Speak into the microphone located on the top of your remote.

Speech examples may be displayed depending on your model. Refer to the Google web site (<https://support.google.com/assistant/>) for more information on what to ask.

Google Duo

Google Duo is an app that provides simple, high-quality video calls right from your TV. To start calling with Google Duo, below items are required:

- 1 10 Mbps or faster internet access for 1080p video call.¹
- 2 Google account²
- 3 External USB camera with a built-in mic which supports Android 9.0 and later.

Below USB camera is compatible³ with this 74 series Philips Android TV. Check the Philips Android TV Hook Up Guide (<http://www.philips.com/support>) for the latest compatibility updates.

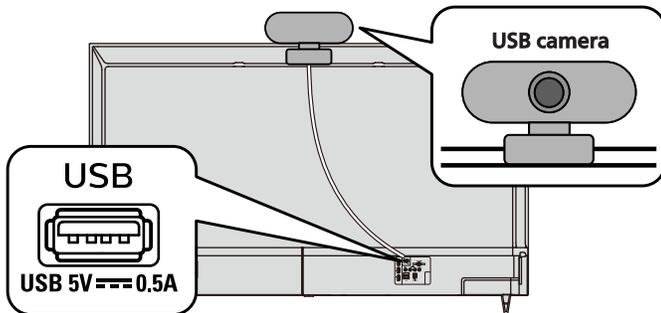

Brand	Model
Logitech	C920s
Logitech	C922

- 1 If connectivity issues arise, please turn on Data Saving Mode under **Settings > Call Setup > Data Saving Mode**. This reduces the necessary bandwidth as well as the call quality.
- 2 A Google account is required. Sign in with an existing account or create a new one. If there is one already signed in on your Android TV, select the account that you want to use.
- 3 Compatibility of USB cameras with this Philips 74 series Android TV may change over time with USB camera hardware and/or software updates.

For more details on how to get started, please visit https://support.google.com/duo/answer/10079968?hl=en&ref_topic=6376099

Below is an example of how to connect and place USB camera.

Picture format

Display modes can be selected when your TV receives a 16:9 or 4:3 video signal.

- 1 Press **≡ (OPTIONS)** to display Options menu.
- 2 Use **◀▶** to select **Picture format**, then press **OK**.
- 3 Select each settings of following table and press **OK** to switch the TV aspect ratio.

Automatic	Displays a picture at maker recommended picture format setting.
Full	Displays a picture that is stretched out of proportion to fill the screen.
Unscaled	Displays a picture at its original size.
4:3	Displays a 4:3 picture at its original size. Sidebars appear on both edges of the screen.
Movie expand	Displays a American vista 16:9 picture at its original size.

Using options menu

You can access to some TV settings directly by using **≡ (OPTIONS)**.

- 1 Press **≡ (OPTIONS)** to display options menu, then press **OK**.

- 2 Use **▲▼◀▶** to select a desired setting, then press **OK**.

Live TV/Antenna

To select channels, use **CH + / -** on your remote. For installation of TV channels using a set-top box, go to **Connecting your devices** ➔ p. 16.

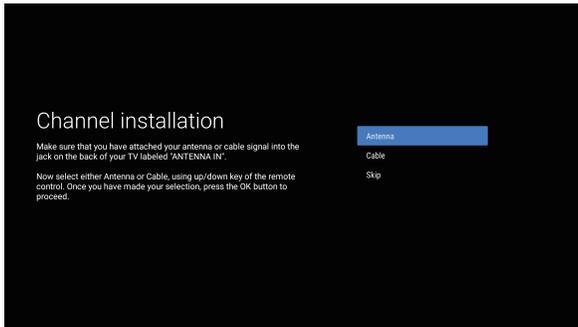

Add channels

To add for the first time or additional channels, please follow the steps below:

- 1 On the Home menu, go to the **Apps** tab and select **How to...**

- 2 Select **Live TV** to open channel installation page. Once open, select **Setup** and press **OK**.
- 3 Select your signal type **Antenna / Cable** to start the channel installation.

Channel list

Press **OK** while viewing Live TV to open channel list.

Program guide

To view the latest TV program schedule, press **TV GUIDE** on your remote.

Note(s)

- Live TV feature is only compatible with antenna and select cable broadcasting. To access your cable box or other source inputs, you must press **INPUT** on your remote.

Channel

Be sure the RF cable is correctly connected to this unit and you are registered with your cable TV provider when you install cable channels.

- 1 When watching Live TV, then press **≡ (OPTIONS)**.
- 2 Use **▲▼◀▶** to select **Settings**, then press **OK**.
- 3 Use **▲▼◀▶** to select **Channel**, then press **OK**.

Parental Controls

You can restrict your children from watching certain programs or channels, by setting parental controls using a rating lock.

- 1 Use **▲▼** to select **Parental Controls**, then press **OK**.

- 2 Use **▲▼** to enter the 4-digit numbers for your PIN code.
 - Default setting of PIN is "1234".
 - When the PIN code is correct, **Parental Controls** menu is displayed.
 See the following description for setting each item.

Note(s)

- If you have forgotten the current 4-digit PIN code, you can reset the code by performing **Reset**.
- Program Restrictions is displayed only when the last selected input is not HDMI.
- When you select the higher rating and set it to **🔒**, the lower ratings will be blocked automatically.
- **RRT5 setting** will be available when the unit receives a digital broadcast using the new rating system.
- To block any inappropriate programs, set your limits in **United States**, **United States (Film ratings)** and **RRT5 setting**.
- For the United States, the unit may download the region ratings lock table, if required.
- The Canadian rating systems on this unit are based on CEA-766-A and CRTC policy.

Setting TV and film ratings

Film ratings lock is the rating system created by MPAA. TV ratings lock has controlled access to individual programs based on their age ratings and content rating.

3 Use ▲▼ to select **Program Restrictions**, then press **OK**.

4 Use ▲▼ to select **Ratings**, then press **OK** repeatedly to switch between block and view.

United States (Film ratings)	United States	Description
–	TV-Y	Appropriate for all children
–	TV-Y7	Appropriate for all children 7 and older
G	TV-G	General audience
PG	TV-PG	Parental guidance suggested
PG-13	–	Unsuitable for children under 13
–	TV-14	Unsuitable for children under 14
R	–	Restricted under 17 requires accompanying parent or adult guardian
NC-17	–	No one under 17 admitted
X	TV-MA	Mature audience only

Rating types and restriction levels

High restrictions
Content suitable for children
Medium restrictions
Content suitable for older children
Low restrictions
Content suitable for teens

X	✓	✓	✓

Canadian English or Canadian French ratings

You can select the rating for Canadian English or Canadian French broadcasting.

Program Restrictions > Rating Systems and check the **Other Countries** and **Other Countries (French)** checkboxes from the list.

Otherwise Canada's rating will not be effective.

3 Use ▲▼ to select **Other Countries** or **Other Countries (French)**, then press **OK**.

4 Use ▲▼ to select the desired rating, then press **OK** repeatedly to switch between block and view.

-  indicates that the rating is locked (Blocked).
-  indicates that the rating is not locked (Viewable).

Other Countries	Other Countries (French)	Description
E		Exempt program
C	–	For all children
C8+	–	For all children 8 and older
G		General audience
–	8 ans+	Unsuitable for ages under 8
PG	–	Parental guidance suggested
–	13 ans+	Unsuitable for ages under 13
14+	–	Unsuitable for ages under 14
–	16 ans+	Unsuitable for ages under 16
18+	18 ans+	Adult audience only

Note(s)

- The V-Chip can block non rated programs as per "CEA-608-E sec. L.3". If the option to block E programs are used in **United States (Film ratings)**, **United States**, **Other Countries** or **Other Countries (French)** accordingly "unusual results may occur and the unit may not receive emergency bulletins or other types of programming": / Emergency bulletins (Such as EAS messages, weather warnings and others) / Locally originated programming / News / Political / Public service announcements / Religious / Sports / Weather.

Inputs Blocked

You can restrict your children from watching certain inputs.

TV / Composite / HDMI 1 / HDMI 2 / HDMI 3

Change PIN

1 Use ▲▼ to select **Change PIN**, then press **OK**.

2 Use ▲▼ to enter the current 4-digit PIN code.

3 Use ▲▼ to enter the new 4-digit PIN code.

- Enter PIN code again to confirm.

! Caution(s)

- If you have forgotten the current 4-digit PIN code, you can reset the code by performing **Reset**. (Refer to **Reset** → p. 35)
- **Reset** will erase all data from your TV's internal storage, including your Google account, system and app data and settings, and downloaded apps.

Note(s)

- Make sure new PIN code and confirm PIN code must be exactly the same. If they are different, the space is cleared for reentering.

Continued on next page.

Multi audio

You can select the audio language while your TV is receiving the digital broadcasting.

1 Use ▲▼ to select **Multi audio**, then press **OK**.

Multi audio	To select the language according to your preference. (It differs depending on the program.)

Accounts & sign-in

Register your Google Account.

You can use multiple Google Accounts on your TV.

Unleash your television's true potential. With a Google® account you can effortlessly expand your entertainment library via the Google Play Store and Google Play app and also keep apps up-to-date.

While you can enjoy this Philips Android TV without a Google Account via the preinstalled selection of applications, we recommend a Google account to download additional apps from the Google Play Store or use Google Assistant.

Note(s)

- Simply login with your Google account.
- It is recommended to create a new Google account specifically for your Android TV. A new account will prevent interference and syncing of your personal account. To create a new Google account, visit <http://accounts.google.com/signup> on your smartphone, tablet, or computer.

The following sound settings can be configured. Depending on the format of the broadcasting, some sound settings are not available.

Sound style	User	The customized settings you preferred.
	Standard	For normal TV viewing.
	Vivid	Enhanced sound.
	Sports	Clear sound for high action.
	Movie	Powerful sound settings for a cinematic experience.
	Music	Optimized for music playback.
	News	Set the anchor's voice at a comfortable volume.

Adjust the speakers to suit your listening preference.

Balance	Cursor ◀	Cursor ▶
	To adjust the balance of the right and left speakers	

This selects sound modes for more spatial or surround sound reproduction.

Sound Surround	Off	To set Sound Surround to off
	On	To set Sound Surround to on

Adjust the tonal quality for each frequency.

Equalizer Detail	<input type="radio"/> 120 Hz
	<input type="radio"/> 500 Hz
	<input type="radio"/> 1500 Hz
	<input type="radio"/> 5000 Hz
	<input type="radio"/> 10000 Hz

You can select the audio output from the unit's speakers or not. If your amplifier is HDMI link function compatible and connected by an HDMI cable to this unit, some sound operations such as volume up can be changed by using this unit's remote. Make sure **HDMI control** is set to **On**. **→ p. 30**

Speakers	TV Speakers	Output from TV speakers even when an external device is connected.
	External Audio System	Output from the external audio system when an external device is connected. Output from TV speakers when an external device is not connected.

You can set the digital audio output format from SPDIF/ARC.

Digital Output	<input type="radio"/> Auto
	<input type="radio"/> Bypass
	<input type="radio"/> PCM
	<input type="radio"/> Dolby Digital Plus
	<input type="radio"/> Dolby Digital

The on-screen picture and the sound from an amplifier via the digital audio (SPDIF) output jack are synchronized by delaying the output from the connection.

SPDIF Delay	Cursor ◀	Cursor ▶
	The higher values will increase the digital audio (SPDIF) output delay.	

This function keeps a constant Loudness differential between the TV commercials and the programs.

Auto Volume Control	Off	To remove the Auto Volume Control
	On	To reduce volume differences between the TV commercials and the programs

Reset the sound settings.

Accessibility

- 1 Press **HOME** and use **▲▼◀▶** to select **Settings** then press **OK**.
- 2 Use **▲▼** to select **Device Preferences**, then press **OK**.
- 3 Use **▲▼** to select **Accessibility**, then press **OK**.

- 4 Adjust the following items.

Captions (Antenna / Cable)

Display	Off	Closed caption is not displayed.
	On	Closed caption is always displayed.
	CC w/ mute	Closed caption is displayed when the sound is off.

Caption service	CC-1 and T-1	The primary closed captions and text services. The closed captions or text is displayed in the same language as the program's dialog (up to 4 lines of script on the TV screen).
	CC-3 and T-3	Serve as the preferred data channels. The closed captions or text is often a secondary language.
	CC-2, CC-4, T-2 and T-4	Rarely available and broadcasters use them only in special conditions, such as when CC-1 and CC-3 or T-1 and T-3 are not available.

In addition to the basic closed caption, DTV has its own closed caption called digital caption service. Use this menu to change the settings for digital caption service.

Advanced selection	CS-1 to CS-6	Select one of these before changing any other item in Captions (Antenna / Cable) menu. Choose CS-1 under normal conditions.
--------------------	--------------	---

Captions

Display	Off	Closed caption is not displayed.
	On	Closed caption is always displayed.

You can choose the size, font, color, background and other characteristics of the caption text.

Language	<input type="radio"/> Default <input type="radio"/> English <input type="radio"/> Español <input type="radio"/> Français
----------	---

Text size	<input type="radio"/> Very small <input type="radio"/> Small <input type="radio"/> Normal <input type="radio"/> Large <input type="radio"/> Very large
-----------	--

- Review your setting choice made above by looking in the bottom left corner of the displayed setting box (not all selections show the differences selected).

Note(s)

- Caption service that you can switch differs depending on the broadcast description.
- Closed captioning service may not be controlled by this unit's menu options if you are watching television through an external cable or satellite set-top box. In which case you will need to use the menu options on the external set-top box to control closed captioning.
- The captions do not always use correct spelling and grammar.
- Not all TV programs and product commercials include closed caption information. Refer to your area TV program listings for the TV channels and times of closed caption shows. The captioned programs are usually noted in the TV listings with service marks such as **CC**.
- Not all captioning services are used by a TV channel during the transmission of a closed caption program.
- Closed caption will **NOT** be displayed when you are using an HDMI or a component connection.
- To show the closed caption on your TV screen, broadcast signal must contain the closed caption data.
- Not all TV programs and commercials have the closed caption or all types of the closed caption.
- Caption's and text may not exactly match the TV voice.
- Changing channels may delay the closed caption for a few seconds.
- Adjusting or muting the volume may delay the closed caption for a few seconds.
- Abbreviations, symbols and other grammatical shortcuts may be used in order to keep pace with the on-screen action. This is not a malfunction.
- The caption or text characters will not be displayed while the Main menu or functions display is shown.
- If a black box appears on the TV screen, this means that the closed caption is set to the text mode. To clear the box, select **CC-1**, **CC-2**, **CC-3** or **CC-4**.
- If the unit receives poor quality television signals, the captions may contain errors or there might be no captions at all. Some possible causes of poor quality signals are:
 - Automobile ignition noise
 - Electric motor noise
 - Weak signal reception
 - Multiplex signal reception (ghosts or screen flutter)
 - Data dropout and pixelation (for DTV only)
- The unit retains the closed caption setting if the power fails.
- When the unit receives special effects playback signal (e.g. search, slow and still) from a VCR's video output channel (ch3 or ch4), the unit may not display the correct caption or text.
- The EUT setting that satisfies § 79.102 (e) is as follows:
 - Font: Mono-font
 - Character size: Large

Text to speech

Text to speech output settings.

To set On / Off of this function, select and set **TalkBack**.

Accessibility shortcut

When **Enable accessibility shortcut** is **On**, you can switch the setting value of **Shortcut service** by holding down ▼ and ← (**BACK**) for few seconds.

FAQ

Question	Answer
<p>My remote does not work. What should I do?</p>	<ul style="list-style-type: none"> • Check the antenna or cable connection to the main unit. • Check the batteries on the remote. • Check if there is an obstacle between the infrared sensor window and the remote. • Test the IR signal output use IR signal check. → p. 39 If okay, then possible infrared sensor trouble. • Aim the remote directly at the infrared sensor window on the front of the unit. • Reduce the distance to the unit. • Re-insert or replace the AAA batteries with their polarities (+/-) as indicated on the remote battery area. • When there is an infrared-equipped device such as PC near this unit, it may interrupt the remote signal on this unit. Move the infrared-equipped device away from this unit, change the angle of the device's infrared sensor or turn off the infrared communication function.
<p>How come the initial setup appears every time I turn on this unit?</p>	<ul style="list-style-type: none"> • Make sure to complete the initial setup before the unit goes into standby mode.
<p>Why can I not watch some RF signal TV programs?</p>	<ul style="list-style-type: none"> • The selected channel may not be broadcasting. • The selected channel cannot be viewed by the Parental Controls setting. → p. 26 • The unit requires some kind of antenna input. An indoor antenna (Digital or VHF / UHF), an external antenna (Digital or VHF / UHF) or an RF coaxial cable from your wall cable or set-top box needs to be plugged into the unit.
<p>How come there is no image from the connected external devices?</p>	<ul style="list-style-type: none"> • Check if the correct input is selected by pressing  (INPUT). → p. 20 • Check the antenna, cable or other input connection to the unit.
<p>When I enter a channel number, why does it change automatically?</p>	<ul style="list-style-type: none"> • Many digital channels have alternate channel numbers. The unit changes the numbers automatically to the ones signifying the broadcasting station's channel number. These basic numbers used for the previous analog broadcasts. (e.g., input digital ch# 30 automatically changes to digital ch# 8.1)
<p>Why are captions not displayed entirely? Or why are captions delayed behind the dialog?</p>	<ul style="list-style-type: none"> • Closed captions that are delayed a few seconds behind the actual dialog are common for live broadcasts. Most captioning production companies can display a dialog to maximum of 220 words per minute. If a dialog exceeds that rate, selective editing is used to insure that the closed captions remain up-to date with the current TV screen dialog.
<p>How can I set the clock?</p>	<ul style="list-style-type: none"> • From the Android TV home screen, select Settings in the upper right of the screen. Scroll down to Device Preferences and select Date & time. Please set it automatically or manually.

Troubleshooting tips

If the unit does not perform properly when operated as instructed in this manual,

Please check the following Troubleshooting tips and all connections once before calling for service.

Power

No power

- Ensure that the AC outlet supplies the proper voltage. Plug another electrical appliance into the AC outlet to ensure that the AC outlet operates normally.
- If a power failure occurs, unplug the AC power cord for 1 minute to allow the unit to reset itself.

Slow start up

Your TV takes a long time to start up when you turn it on.

- When powering off the TV into Low Power Standby, there will be a longer load time when powering it back on.
- Press and hold the **⏻ (POWER)** button for 1 second or more to go into Low Power Standby. Power consumption in this mode will be reduced (≤ 0.5 W).
- Pressing the **⏻ (POWER)** button for less than 1 second will put the TV into Quick Start Standby, which will have a quicker boot time when powering back on. Power consumption in this mode will be slightly higher.

For more details, please visit www.philips.com/support

Remote

Remote buttons are not functional.

- Re-insert or replace the AAA batteries with their polarities (+/-) as indicated on the remote battery area.

The Google Assistant button on your remote doesn't work

- Make sure the remote is connected to the TV via Bluetooth. Google Assistant uses Bluetooth to create a safe connection between the remote and TV. (See step "7 Connecting your devices" in the Quick start guide for details)
- Make sure Google Assistant feature was activated during initial installation. To check this, go to **Settings > Device Preferences > Google Assistant > Accounts** to see if you are logged into an active account.

Network

Cannot connect the network.

- Check if your router and/or modem is properly connected.
- Check if the Ethernet cable connection between the TV and your router or modem is properly secured.
- Power cycle the router and/or modem.
- Check your network settings.

Slow Data Connection or buffering.

- Check the settings between your router and ISP modem or gateway (if applicable).
- Connect to a stable wireless connection from home wireless or wired network.
- The use of mobile hot spots or public wireless connections is not recommended.

Performance

Remote response is delayed or sluggish during initial use.

- Your television is automatically downloading and installing the latest applications, for the best user experience.
- During this time, you may experience a delayed response from your remote. Upon successful installation, your remote will operate normally.

Google Duo

USB camera does not work

- Check if USB camera supports Android 9.0 or later. (May be listed on USB camera packaging or manufacturer's website)
- Check if USB camera is connected to the TV.
- Turn off the TV and disconnect/reconnect USB camera. Turn the TV back on and reopen the Duo app.
- If issues remain, please visit the Duo support page and check the Troubleshoot section. (<https://support.google.com/duo>)

Other party cannot hear anything (My microphone does not work)

- Check if USB camera has a built-in mic and supports Android 9.0 or later. (May be listed on USB camera packaging or manufacturer's website)
- Check if your microphone is muted. (Please unmute if so)
- Check if USB camera is connected to the TV.
- Turn off the TV and disconnect/reconnect USB camera. Turn the TV back on and reopen the Duo app.
- If issues remain, please visit the Duo support page and check the Troubleshoot section. (<https://support.google.com/duo>)

I cannot hear other party (Speaker does not work)

- Check if the volume of the TV is muted or very low. (Please unmute or turn the volume up if so)
- Check if USB camera is connected to the TV.
- Turn off the TV and disconnect/reconnect USB camera. Turn the TV back on and reopen the Duo app.
- If issues remain, please visit the Duo support page and check the Troubleshoot section. (<https://support.google.com/duo>)

Where can I find Google Duo app?

- Open the Google Play store and search "Google Duo". From here, you can download or open the app. Once downloaded, you will be able to find it in the Apps tab in the home screen.

Picture

Power is on but screen image is off.

- Check if the connection for your source device is properly secured.
- Check if the correct input is selected by pressing **⏻ (INPUT)**.
- Verify that your HDMI mode, for the input selected matches the resolution output of your source device. Change source input until you have picture and sound.

Picture on HDMI Input

Television has sound with no picture or abnormal picture.

- HDMI EDID Version setting is set to a different mode than your source device. To change it, refer to the step "7 Connecting your devices" in the Quick start guide and see "Changing input to devices that are connected to the TV".
- Change the resolution output of your source device.

Accessibility

Television is speaking prompts out-loud.

- To disable the TalkBack on your television, press **🏠 (HOME)** on your remote, navigate to settings icon in the upper right corner of the home screen and select **Device Preferences > Accessibility**, select **TalkBack**, press **OK** to toggle between on or off.

Sound on HDMI with external devices

Television has no sound.

- Please check to be sure the device is connected to the HDMI 2 (ARC) input on the TV.

Note(s)

- The LCD screen is manufactured to provide many years of useful life. Occasionally a few non active pixels may appear as a fixed point of blue, green or red. This is not to be considered a defect in the LCD screen.
- Some functions are not available in specific modes, but this is not a malfunction. Read the description in this manual for more details on correct operations.

For additional troubleshooting, refer to the Frequently Asked Questions or FAQs on www.philips.com/support.

6 Information

Glossary

Analog TV (NTSC)

Acronym that stands for National Television Systems Committee and the name of analog broadcasting standards. Off the air analog TV signals are no longer being sent by major broadcasting stations in the USA.

ARC (Audio Return Channel) (HDMI 2 only)

HDMI-ARC allows you to use Philips HDMI control to output TV audio directly to a connected audio device, without the need for an additional digital audio cable. Be sure that the device is HDMI CEC and ARC compliant, and that the TV is connected to the device using an HDMI cable attached to both HDMI-ARC connectors.

Aspect ratio

The width of a TV screen relative to its height. Conventional TVs are 4:3 (in other words, the TV screen is almost square); widescreen models are 16:9 (the TV screen is almost twice as wide as its height).

CEC (Consumer Electronics Control)

This allows you to operate the linked functions between our brand devices with CEC feature and this unit. We do not guarantee 100% interoperability with other brands of CEC compliant devices.

Dolby Digital

The system developed by Dolby Laboratories to compress digital sound. It offers stereo sound (2ch) or multi-channel audio.

DTV (ATSC)

Abbreviation that stands for Advanced Television Systems Committee and the name of the digital broadcasting standards.

e-POP

e-POP is showing set features, technical information, etc on this TV set that is displayed on the TV screen mainly used by TV retailers. Previously the information was on a printed sticker that was put on the display.

HDMI (High-Definition Multimedia Interface)

Interface that supports all uncompressed, digital audio / video formats including set-top box, Blu-ray Disc™ / DVD recorder or digital television, over a single cable.

HDR

HDR stands for High Dynamic Range. By using additional data encoded with the source signal, HDR capable products offer greater contrast through an expansion of the range of the image's color luminance. The source, cable and display must all support HDR.

HDTV (High-Definition TV)

Ultimate digital format that produces high resolution and high picture quality.

PIN code

A stored 4-digit number that allows access to parental control features.

SAP (Secondary Audio Program)

Second-audio channel delivered separately from the Main-audio channel. This audio channel is used as an alternate in bilingual broadcasting.

SDTV (Standard Definition TV)

Standard digital format that is similar to the analog TV picture quality.

Maintenance

Cleaning

- Clean the front panel and other exterior surfaces of the unit with a soft microfiber cloth or lens brush. Before cleaning the panel, disconnect the AC power cord.
- Never use a solvent or alcohol. Do not spray insecticide liquid near the unit. Such chemicals may cause damage and discoloration to the exposed surfaces.
- Do not spray any liquids on the screen or other exterior surfaces of this unit. If liquids enter the unit, they could cause shorts, electric shocks or fire damage.

Servicing

Should your unit become inoperative, do not try to correct the problem yourself. There are no user serviceable parts inside. Call our toll free customer support line found on the cover of this user manual to locate an authorized service center.

IR signal check

If the remote is not working properly, you can use a digital or cell phone camera to see if it is sending out an infrared signal.

e.g.) With a digital camera:

Point the digital camera towards the remote infrared diode at the front of the remote. Press and hold any key on the remote and look at the camera display. If an infrared pulsating light appears on the display, the remote is sending out an IR signal.

Note: Some cameras may have an IR filter or dual camera cell phones may have an IR filter in one of the camera's and both will not display the IR signal.

7 Specifications

Model #		65PUL7472	55PUL7472
Picture			
Type	UHD (Ultra HD) (3840 x 2160 pixels 60 Hz)		
Diagonal screen size / Aspect ratio	64.5" / 16:9	54.6" / 16:9	
Viewing angles	178° (V) by 178° (H)		
Built-in digital / analog tuner	ATSC (digital) / NTSC (analog)		
Sound			
Mono / Stereo	Mono, Stereo		
Power output (RMS watts)	10 W x 2		
Equalizer	5 band		
Ease of use

	HD (16:9 source)		
	UHD		
Channel			
Channel coverage	Over-the-Air DTV (ATSC)	VHF: 2~13 UHF: 14~69 (Each channel may have e.g. 2.1~2.9, 3.1~3.9, etc)	
	Over-the-Air Analog (NTSC)	VHF: 2~13 UHF: 14~69	
CATV (Analog NTSC)	2~13, A~W W+1~W+94 (Analog W+1~W+84), A-5~A-1, 5A		
Tuning system	Channel frequency synthesized tuning system		
Channel access	Direct access number keyboard, Programmable scan and Channel + (up) / - (down)		
Connectivity			
Composite video input	1		
HDMI input	3 (selectable HDMI modes)		
	Supporting HDMI video signals : 480i/p, 720p, 1080i @60 Hz, 1080p, 2160p @24/30/60 Hz		
	Supporting HDMI HDR signals : HDR10, HLG (Hybrid Log-Gamma)		
	Supporting HDMI digital audio signals : LPCM, AC3, DD+		
	Supporting PC-input video signal up to 4096 x 2160		
Analog audio L/R input	1 (L Audio / R Audio)		
PC input	Via HDMI		
USB	1		
Wireless LAN	Wireless LAN Supporting wireless standards : IEEE 802.11a/b/g/n/ac (2.4 GHz/5 GHz)		
Ethernet port	1		
Digital audio output	1 Supporting Dolby Audio		
Headphone output	1 1/8" (3.5 mm)		
Bluetooth	Version 5.0		
Power			
Power requirements	120 V~ +/- 10 %, 60 Hz +/- 0.5 %		
Temperature			
Operating temperature	41 °F (5 °C) to 104 °F (40 °C)		

- Specifications are subject to change without prior notice.

8 Warranty

Limited warranty one (1) year

Warranty coverage :

This warranty obligation is limited to the terms as set forth below.

Who is covered:

This product warranty is issued to the original purchaser or the person receiving the product as a gift against defects in materials and workmanship as based on the date of original purchase ("Warranty Period") from an Authorized Dealer. The original sales receipt showing the product name and the purchase date from an authorized retailer is considered such proof.

What is covered:

This warranty covers new products if a defect in material or workmanship occurs and a valid claim is received within the Warranty Period. At its option, the company will either (1) repair the product at no charge, using new or refurbished replacement parts, or (2) exchange the product with a product that is new or which has been manufactured from new, or serviceable used parts and is at least functionally equivalent or most comparable to the original product in current inventory, or (3) refund the original purchase price of the product.

Replacement products or parts provided under this warranty are covered against defects in materials and workmanship from the date of the replacement or repair for ninety (90) days or for the remaining portion of the original product's warranty, whichever provides longer coverage for you. When a product or part is exchanged, any replacement item becomes your property and the replaced item becomes company property. When a refund is given, your product becomes company property.

Note: Any product sold and identified as refurbished or renewed carries a ninety (90) day limited warranty.

Replacement product can only be sent if all warranty requirements are met. Failure to follow all requirements can result in delay.

What is not covered - Exclusions and limitations:

This Limited Warranty applies only to new company manufactured products that can be identified by the trademark, trade name, or logo affixed to it. This Limited Warranty does not apply to any hardware product or any software, even if packaged or sold with the product, as manufacturers, suppliers, or publishers may provide a separate warranty for their own products packaged with the bundled product.

The company is not liable for any damage to or loss of any programs, data, or other information stored on any media contained within the product, or other additional product or part not covered by this warranty. Recovery or reinstallation of programs, data or other information is not covered under this Limited Warranty.

This warranty does not apply (a) to damage caused by accident, abuse, misuse, neglect, misapplication, or non-supplied product, (b) to damage caused by service performed by anyone other than company approved Authorized Service Location, (c) to a product or a part that has been modified without written company permission, or (d) if any serial number has been removed or defaced, or (e) product, accessories or consumables sold "AS IS" without warranty of any kind by including refurbished product sold "AS IS" by some retailers.

This Limited Warranty does not cover:

This warranty gives you specific legal rights. You may have other rights which vary from state/province to state/province.

- Shipping charges to return defective product.
- Labor charges for installation or setup of the product, adjustment of customer controls on the product, and installation or repair of antenna/signal source systems outside of the product.
- Product repair and/or part replacement because of improper installation or maintenance, connections to improper voltage supply, power line surge, lightning damage, retained images or screen markings resulting from viewing fixed stationary content for extended periods, product cosmetic appearance items due to normal wear and tear, unauthorized repair or other cause not within the control of the company.
- Damage or claims for products not being available for use, or for lost data or lost software.
- Damage from mishandled shipments or transit accidents when returning product.
- A product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by these modifications.
- A product used for commercial or institutional purposes (including but not limited to rental purposes).
- Product lost in shipment and no signature verification receipt can be provided.
- Failure to operate per user manual.
