## Lever lock

## 7000 series

Handle lever usage

Touch-sensor waking system

Auto locking function

DDL173LCFBB

## Stable performance

### With quick unlock by fingerprint

With the fingerprint sensor integrated into the handle, unlocking is conveniently in one grip. Its dual verification and hidden PIN code functions enhance home entry security. 4 smart unlocking methods and auto-locking makes life easier.

#### Extraordinary design brings outstanding experience

- With a single grip

#### Multiple protection in one for overall home safety

- Protect home security at all time
- Security is assured
- Effectively reminds security risks
- Protects your PIN code security in real-time
- Higher lock reliability and better home security
- Eliminates tempering risk while away

#### Life is more than convenient

- Eliminating the hassle of repetitive locking
- Enjoy the reassurance whenever door is closed

# Highlights

## Enjoy easy unlock

Semiconductor fingerprint sensor

The fingerprint sensor is integrated in the handle lever so that when you hold the handle, your fingertip will naturally fall on the sensor. Upon successful authentication, you can press down the handle and unlock the door swiftly.

## Multiple alerting function

Multiple alarms

Philips 7300 has been featured with an all-round alert function. It improves the anti-theft level of your home, safeguards your family in real-time, and reminds you of the door lock status.

## Dual verification mode

Dual verification

With any two combinations of fingerprint, PIN code, and key tag verification under dual verification mode, you can unlock the door, which provides double protection for home security.

## Outside forced locking

Outside forced lock function

Before leaving home, you can touch the outside forced lock button to enable the function. In this mode, opening the door from inside will trigger an alert. This feature can effectively remind you of security risks and upgrade the level of home security.

## Hidden PIN code

Fake PIN Code

Feature with hidden PIN code technology, Philips smart lock allows you to enter any random number combinations to successfully get identified as long as there is a consecutive input of the real password. This feature can effectively prevent peeping and safeguard your real password.

## C-grade lock cylinder

Super B grade lock cylinder

The lock cylinder is the key component that controls the opening of the lock. The C-grade lock cylinder employs multiple anti-theft technologies with a unique design of pin tumbler and vane structure, it can provide high deterrence against technical lock-picking.

## Safe handle function

Enable safe handle function

You can enable the safe handle function before leaving home. After the door is locked, the indoor handle will be locked up to ensure that nobody could open the door by pushing the indoor handle. This feature can effectively prevent unlocking from inside through the door viewer, thus eliminating security risks and improves anti-theft performance.

## Auto mortise

3 proofs mortise

Feature with automatic locking function, the Philips 7300 lever lock reduces the security risks associated with forgetting to close the door.

## Auto locking

Automatic locking

Philips 7300 utilizes automatic mortise. Without the need for any additional action, the deadbolt will spontaneously pop up after you close the door. If the door is not locked properly, the lock will sound an alert to remind you of the door lock status.

# Specifications

## Access Solution

Card/Key Tag  
Fingerprint  
Mechanical Key  
Password/PIN Code

## Smart Lock Functions

**Alarm Function:** Anti-prying alarm, Outside forced lock alarm, Abnormal bolt alarm, Anti-dismantle alarm

**Locking Function:** System locking, Indoor deadlock

**Mortise:** C grade lock cylinder

**Safety Function:** Dual verification, Fake PIN code, Outside forced lock function, Safe handle function

## Easy Operation

**Indicator:** Door locks status prompt, Low battery prompt, Mute status prompt, Outside forced lock prompt, System locking prompt

**Voice Guide:** Human voice guide

## Design & Appearance

**Color:** Obsidian black  
**Handle:** Lever handle  
**Surface Processing:** Electroplating  
**Fingerprint Sensor:** Semiconductor

## Lock Capacity

**Card/Key Tag:** Up to 100  
**Fingerprint:** Up to 100  
**Master PIN Code:** 1  
**One-time PIN Code:** 1  
**User PIN Code:** Up to 10

## Mode

**Operation Mode:** Auto mode, Manual mode  
**System Setup Mode:** Dual verification mode, Normal mode

## Power Specification

**Battery Type:** Alkaline Batteries  
**Emergency Power Supply:** 5V power bank  
**Maximum Batteries Capacity:** 8 batteries

**Power Supply:** 4 AA batteries

**Time of Use:** 10 months\*

**Working Voltage:** 4.5-6V

## Installation

**Door Opening Direction:** Left inward opening, Left outward opening, Right inward opening, Right outward opening

**Door Thickness:** 38-60 mm, 60-90 mm, 90-120 mm, Other range\*

## Accessory Parts

**Accessory Battery:** 4 AA alkaline batteries

**Certificate**

**Drilling Template**

**Installation Accessories**

**Mechanical Key:** 2 keys

**Mortise**

**Mounting Plate**

**Cleaning Pad**

**Smart Key Tag:** 2 cards

**User Manual**

**Warranty Card**
