

Philips
5000 series LED-LCD TV

40" class/po
Full HD 1080p

40PFL5708

Brilliantly Thin

LED Brilliance with Full HD picture performance

Get sleek styling and crystal clear Full 1080p HD from this LED television. With the ultimate in sharpness, detail and vivid colors, your favorite shows will look better in Philips LED brilliance.

See brilliant picture quality

- Pixel Plus HD for better details, depth and clarity
- Full HD LCD display, with a 1920x1080p resolution

Greener every day

- Energy Star rated for low power consumption

Easy to connect and enjoy

- 3 HDMI inputs with Easylink for HD connection
- USB for fantastic multimedia playback
- PC-input allows you to use your TV as a PC monitor

Enlarge your viewing experience

- Enjoy rich sound and clear dialog with DTS TruSurround
- Brilliant LED images with low power consumption
- Advanced Picture Settings for ultimate calibration control
- 120 Hz PMR for the ultimate in motion sharpness

PHILIPS

5000 series LED-LCD TV
40" class/po Full HD 1080p

Highlights

Pixel Plus HD

Pixel Plus HD is a picture processing technology that enables viewers to watch content that is vivid, natural, and real. The result means superbly life-like pictures with incredible details and depth from any HD source.

120 Hz PMR

120 Hz Perfect Motion Rate (PMR) creates extreme motion sharpness for clear and vibrant images in fast action movies. The new Philips PMR standard reduces response time of the HDTV to produce faster picture transitions and reduces motion artifacts.

DTS TruSurround

DTS TruSurround creates an immersive, feature-rich surround sound experience from

two speakers, complete with rich bass, high frequency detail and clear dialog. Extremely broad sweet spot for maximum realism and enjoyment, sculpted bass to optimize low frequency performance of small drivers and enclosures, dialog enhancement to ensure clear and intelligible vocals and definition control for maximum high-frequency realism and clarity.

Advanced Picture Settings

Advanced Picture Settings gives you access to more granular control over the picture performance of your TV. Discrete RGB Gain and Offset controls let you adjust the brightness and contrast of individual Red, Green and Blue pixels of your LCD TV to achieve a perfectly calibrated picture.

USB (multimedia)

The USB connector allows access to jpeg photos, mp3 music and video files of most USB-sticks (USB memory-class device). Plug the USB into the slot at the side of the TV and access the multimedia content using the easy on screen content browser. You can now view and share your videos, photos and music.

40PFL5708/F7

LED with low power consumption

LED lighting technology is the most advanced available. In this TV it combines an eye-catching minimalist design with stunning image quality, as well as being the lowest power consumption in its category. Another environmental benefit is that LED lighting technology does not contain hazardous materials. With an LED backlight you can enjoy low power consumption, high brightness, incredible contrast and sharpness and vibrant colors.

Full HD LCD display 1920x1080p

The Full HD screen has the widescreen resolution of 1920 x 1080p. This is the highest resolution of HD sources for the best possible picture quality. It is fully future proof as it supports 1080p signals from all sources, including the most recent like Blu-ray and advanced HD game consoles. The signal processing is extensively upgraded to support this much higher signal quality and resolution. It produces brilliant flicker-free progressive scan pictures with superb brightness and colors.
