HTB3525B

Everything you need to boost your TV's sound

The best TV companion

Place this Blu-ray Surround Base on top of your TV, connect one cable and start enjoying your movie and online services - Netflix and Vudu wirelessly. What's more? NFC for one touch Bluetooth® pairing allows effortless music listening.

Connect and enjoy all your entertainment

- Built-in Wi-Fi to enjoy your connected media wirelessly
- Full HD 3D Blu-ray for a truly immersive 3D movie experience
- Direct remote access to Netflix and Vudu movie services
- One-Touch with NFC-enabled smartphones for Bluetooth pairing
- Bluetooth wireless music streaming from your music devices
- HDMI for high definition movies and picture quality

Designed for simplicity

- Perfect match with your TV, just place it on top
- Touch panel for intuitive playback and volume control

Richer sound for watching TV and movies

- Virtual Surround Sound for a realistic movie experience
- Dolby Digital and DTS for great surround sound
- Integrated subwoofer for powerful bass

PHILIPS

Highlights

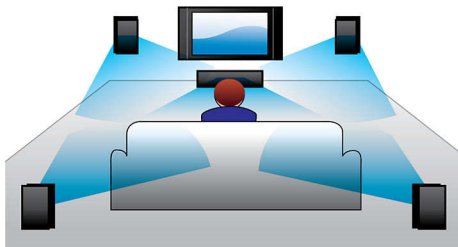

Direct remote Netflix and Vudu

To speed up the process, and make it more user-friendly, there are Netflix and VUDU shortcut buttons on remote control that allow you to do the basic commands necessary both for watching your video and for controlling the general interface.

Built-in Wi-Fi

With built-in Wi-Fi, you can access your media content wireless. Say goodbye to squinting at the computer screen, and lean back and enjoy your media files on your TV - in the comfort of your living room.

Dolby Digital and DTS

Go digital and get the most out of your music and movies. Even stereo music sounds great because Dolby Digital and DTS Digital Surround enhance digital music and videos, pumping it up so you get truly immersive surround sound out of your home cinema speaker.

Full HD 3D Blu-ray

Be enthralled by 3D movies in your own living room on a Full HD 3D TV. Active 3D uses the latest generation of fast switching displays for

real life depth and realism in full 1080x1920 HD resolution. By watching these images through special glasses with right and left lenses that are timed to open and close in synchrony with alternating images, the full HD 3D viewing experience is created in your home cinema. Premium 3D movie releases on Blu-ray offer a wide, high quality selection of content. Blu-ray also delivers uncompressed surround sound for an unbelievably real audio experience.

HDMI for HD movies

HDMI is a direct digital connection that can carry digital HD video as well as digital multichannel audio. By eliminating the conversion to analog signals it delivers perfect picture and sound quality, completely free from noise. Movies in standard definition can now be enjoyed in true high definition resolution - ensuring more details and more true-to-life pictures.

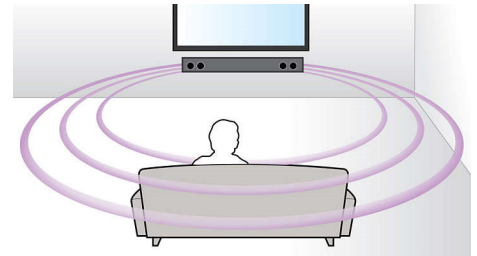

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC enabled smartphone or tablet on the NFC area of a speaker to turn the

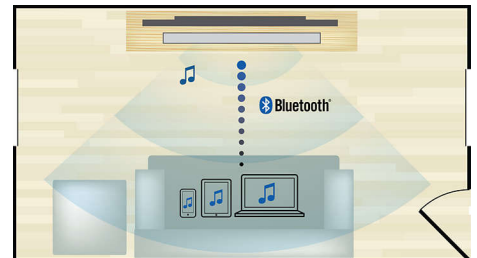

speaker on, start Bluetooth pairing, and begin streaming music.

Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

Bluetooth wireless streaming

Bluetooth wireless music streaming from your music devices

Specifications
