Highlights

99.97% filtration

Philips NanoProtect True HEPA filter captures up to 99.97% of particles that pass through the filter as small as 0.3 microns – the size of most common airborne allergens, particles, bacteria and viruses.

Reduces gases and odors

Philips NanoProtect Active Carbon filter is proven to reduce gases and odors.

True HEPA filter lifetime

The True HEPA filter only needs to be replaced approximately every 12 months.*

Active Carbon lifetime

The Active Carbon filter only needs to be replaced approximately every 6 months.*

3 Filters included

The Philips NanoProtect annual filter set includes one True HEPA filter and 2 Active Carbon filters. It is enough for approximately 1 year supply.
