Highlights

7" screen

7" screen offers you unrivalled ease of use.

Very practical: WelcomeEye Comfort allows you to respond to visitors and remotely open a door or motorised gate.

Colour night vision

The CMOS lens, with an extra-wide viewing angle (H100 °/V70 °) and white LEDs for clear and sharp night vision of up to 2.5 m, allows you to recognise your guests even when it's dark.

Monitor access to your home

Monitor the front of your house with WelcomeEye Comfort's monitoring function.

Switch between monitors

Communicate easily within your home with the WelcomeEye video doorphone monitors thanks to the intercom function.

Ultra-flat monitor

Enhance your home with the WelcomeEye Touch's ultra-thin monitor and its remarkable signature LED technology.
