Beauty meets simplicity

LED Brilliance with HD picture performance

Get sleek styling with touch sensor controls from this LED television. With the ultimate in sharpness, detail and vivid colors, your favorite shows will look better in Philips LED brilliance. A great choice and size for any room.

Enlarge your viewing experience

- Digital Crystal Clear for detail depth and clarity
- Brilliant LED images with low power consumption
- High Definition Resolution
- SRS TruSurround XT sound performance for unmatched audio

Complete digital connectivity made simple

- USB for fantastic multimedia playback
- Seamless connectivity with 3 HDMI inputs and Easylink
- PC-input allows you to use your TV as a PC monitor

Simple to set up, easy to use

- Picture setting made fast and easy with Setting Assistant
- Touch sensor controls conveniently located
- Auto picture mode for an optimized viewing experience

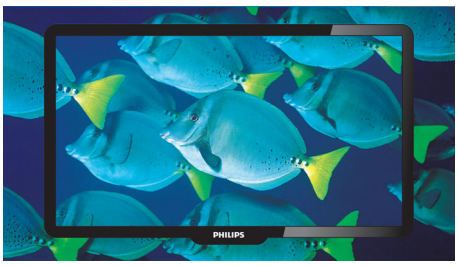

Greener every day

- Energy Star rated for low power consumption

PHILIPS

Highlights

Digital Crystal Clear

Digital Crystal Clear is a package of picture innovations that digitally adjusts and optimizes picture quality to optimal contrast, color and sharpness levels. It's like watching vivid cinema-like images.

LED with low power consumption

LED lighting technology is the most advanced available. In this TV it combines an eye-catching minimalistic design with stunning image quality, as well as being the lowest power consumption in its category. Another environmental benefit is that LED lighting technology does not contain hazardous materials. With an LED backlight you can enjoy low power consumption, high brightness, incredible contrast and sharpness and vibrant colors.

SRS TruSurround XT

SRS TruSurround XT® creates an immersive, feature-rich surround sound experience from two speakers, complete with rich bass, high frequency detail and clear dialog.

Picture setting with Assistant

Settings assistant for effortless personalized TV settings. The new settings assistant personalization wizard guides you to personalized settings with unparalleled ease. It includes not only picture, but the complete viewing experience, including sound setting. The wizard shows a few screens with easy to choose options to select the essential settings. The TV performance is set to the your personal preference without difficult terms or settings, and this very quickly.

USB multimedia playback

The USB connector allows access to jpeg photos and motion jpeg movie(320x240 30fps, PCM) of most USB-sticks (USB memory-class device). Plug the USB into the slot at the side of the TV and access the multimedia content using the easy on screen content browser. You can now view and share your movie and photos.

Seamless connectivity

EasyLink uses the HDMI CEC industry standard protocol to share functionality between connected devices and the TV. HDMI makes an uncompressed digital RGB connection from the source to the screen for the ultimate picture quality. HDMI uses HDCP copy protection. With HDMI input of the TV you can connect multiple HD sources, for instance an HD settop box, a Blu-ray player, and Game Console or Digital Camcorder.

Specifications

Picture/Display
- Aspect ratio: Widescreen
- Panel resolution: 1366 x 768p
- Brightness: 250 cd/m²
- Response time (typical): 8 ms
- Contrast ratio (typical): 1000:1
- Diagonal screen size: 22 inch / 56 cm
- Visible screen diagonal (inch): 21.6 inch
- Viewing angle: 170° (H) / 160° (V)
- Picture enhancement: Digital Crystal Clear, 3D Combfilter, Digital Noise Reduction, Progressive scan
- Display screen type: LED WXGA Display
