Dedicated design for perfection

- Modernize your door
- With just a screwdriver

PHILIPS

Electronic deadbolt
Fingerprint unlock Keyless, One-time PIN code, Easy assembling

DDL210SP5KN0/00

Highlights

Keyless entry

This lock stores up to 20 PIN codes and 50 fingerprints. Unlocking your door with a PIN code or fingerprint is much easier and faster than using a key. With the auto lock setting, you do not have to worry about forgetting to lock the door.

Simple sharing

Works with Philips Home Access app to remotely generate a one-time PIN without a Wi-Fi bridge or Bluetooth connection. You can easily share unlimited one-time PIN codes for your home with friends, family members, or anyone you want.

Ultra-long battery life

This electronic door lock consumes little power and lasts up to 1 year* with 4 AA alkaline batteries. When the batteries run low,

a low battery alert will remind you to change your batteries, preventing a lockout.

Voice guide

Voice guidance guides you through configuration of the lock without the need for an instruction manual. English, French, and Spanish voice guides are available.

Multiple alert function

This electronic door lock is equipped with a lockout alarm, a low battery alert, away mode for vacations, privacy mode and other security features to ensure the safety of your home at all times. Safer and more secure, Philips electronic deadbolt brings a new smart experience.

Biometric Identification

When you come home, you no longer need to look for the key on the door, just a gentle touch of your fingerprint is enough to unlock the door. Biometric fingerprint identification technology improves the accuracy of fingerprint recognition. Counterfeit fingerprints are rejected, which enhances security.

Modern design

Modern design fits your door. High quality touch screen keypad, available in multiple finishes. This digital door lock improves doors of any style.

Easy installation

The door lock installs in minutes with just a screwdriver and is suitable for most standard door preps.
