- Dolby Digital Plus for full-range sound
- Records up to 50 hours of storage
- Certified wireless connection to the internet
- Direct remote Netflix and Vudu
- Full HD 1920x1080p output

Highlights

Digital video recording

Record programming from your over-the-air TV antenna. The recorder will only record unencrypted signals. Please contact your cable provider for more information regarding signals.

Net TV

Experience a rich selection of online services with Net TV. Enjoy movies, pictures, infotainment and other online content directly on your TV whenever you like. Wirelessly navigate and select what you want to watch with the remote control. The Philips menu gives you access to popular Net TV services fitted for your TV screen.

Dolby Digital Plus

Dolby Digital Plus gives you access to more content and lets you experience all of the enveloping sound. You will follow the action with your eyes and your ears with this premium-quality sound. When listening to your music or watching movies, you will feel the explosive power of dazzling special effects and hear every sound as the artist or director intended.

500GB HDD

Enjoy up to 50 hours of video playback it's that simple. You can now plan in advance to record your favorite programs you may miss without having to connect to any other devices.

Specifications

Certified Wi-Fi

Certified Wi-Fi, also known as IEEE 802.11n, is the new wireless network standard. It includes many new options to improve the quality of the wireless link, offering faster speed and reliability compared to previous Wi-Fi standards. Wi-Fi also features backward compatibility, which makes it possible for this DVR to transmit to and receive from routers that do not support the latest Wi-Fi standards.

Direct remote Netflix and Vudu

To speed up the process, and make it more user-friendly, there are Netflix and VUDU shortcut buttons on the remote control that allow you to do the basic commands necessary for watching your video and for controlling the general interface.

Full HD 1920x1080p output

This is the highest resolution of HD source for the best possible picture quality. It is fully future proof as it supports 1080p signals from all sources. The signals processing is extended to support this much higher signal quality.

Sound

Sound enhancement: Dolby Digital Plus

Convenience

Wide range: Parental Control
5 Languages: English, French, Spanish
Built-in HDD: 500GB
Parent/Reception/Transmission TV system: ATSC
