

Philips Avent

SCD921 SCD923 Connected Baby Monitor

Keep an eye on your baby securely and from anywhere with the Philips Avent Connected Baby Monitor. Our Secure Connect System keeps you linked to your little one throughout home. And with the Philips Avent Baby Monitor+ app you can check in, and more, even when you need to be away.

Our EcoPassport

As a company committed to doing business sustainably, we are keen to help our customers make responsible choices. We offer solutions that improve people's health and well-being while reducing impact on the environment.

Our EcoPassports summarize the environmental benefits our products offer in one or more of our focal areas. For example, increased energy efficiency, more sustainable packaging, or a circular-ready product design; optimized for repair, refurbishing and recycling.

In this way, we want to help ensure that each purchase decision is the right one for our customer's needs *and* the planet.
