PHILIPS

Grown Up Cup

260ml

9oz

9m+

Helps with the transition to grown up drinking The ideal transition cup for growing toddlers

Make it easy for your toddler to transition from sippy cups to open cup drinking, without the mess! The lip-activated technology means liquid only flows from the cup when the child's lip is pressed against the rim.

For independent drinking

- Handles provide toddler with grip/hold options
- Protective hygiene lid so cup remains clean
- Lip-activated technology

Allows Healthy Oral Development

• Allows healthy oral development*

BPA-Free and Dishwasher safe

- Dishwasher safe
- This cup is made from BPA free material

Healthy development

• Our cups follow the development of your child

Helps the Transition to Big Kid drinking

• Drinking from 360° all around the rim, just like an open cup

Highlights

Drink from all around the rim

This spoutless cup allows for drinking from 360° all around the rim, just like an adult cup.

Healthy oral development

The design of this spoutless cup allows teeth to grow healthily.

Lip-activated technology

This spoutless cup features a unique valve that's lip-activated so liquid only flows from the cup when the child's lip is pressed against the rim. Between sips, the valve automatically shuts so you won't have to worry about spills or messes.

Handles for multiple gripping

The cup has integrated handles, providing your toddler with the option to grip the cup by it's container or it's easy-grip handles.

Protective hygienic cap

Keeps the cup clean whether at home or on the go.

BPA Free

This Philips Avent cup is made from BPA free material.

Dishwasher safe

The parts of this cup are conveniently dishwasher safe. Disassemble the cup and let your dishwasher do the work or wash by hand in soapy water.

Healthy development

We support children's journey towards independent drinking, helping to enable an easy transition from breast or bottle to open cup. Learning from health care professionals, our different solutions with nipples, soft and hard spouts, straws and 360° drinking rims follow the development of your child and stimulate his newly acquired motor and drinking skills.
