The complete double pump

Quick, comfortable and loved by moms

Enter a new era of expressing with a perfect balance of suction and nipple stimulation inspired by the natural way babies drink. Corded version.

Personalized and easy to use

- Easily clean and assemble with fewer parts
- Travel bag and insulated pouch for on-the-go ease
- Whisper quiet motor, keeps sessions relaxed
- Start with your last session settings
- Pause when you want to

Gentle and comfortable

- Express without leaning forward
- Soft silicone cushion adapts to your nipple shape and size
- 8 stimulation modes, 16 expression modes

Quick expressing, more milk in less time*

- Natural Motion Technology gets milk moving quickly

Highlights

Quick milk flow*

Express more milk in less time* with a flange that stimulates the breast to express milk just like a baby. With a gentle latch-on and just the right massage and suction, it's no surprise that 97% of moms say the pump is effective. ****

Adapts to your nipple

Whatever your shape, the pump's soft, flexible silicone cushion fits your breast and nipple comfortably. Fitting 99.98% (up to 30mm) of breast sizes**, it adapts for a latch-on that's soft yet secure.

Sit comfortably

Feel relaxed as you express thanks to a design that lets you sit upright rather than having to lean forward. Clinically proven comfortable expressing position***.

Personalize to your needs

Get the most from every session with 8 modes for stimulating the flow of milk and 16 modes for expressing it. You can fine-tune as you go.

Clean and setup easily

We designed our pump to be free from complexity. So with few parts it's also a breeze to clean and assemble.

Express anywhere discreetly

Our pump's motor is practically silent in use. So you can express at home (or anywhere) discreetly, and with one less distraction.

Save your favourite settings

The memory function automatically stores your last stimulation and expression settings. So, all you need do is get comfortable and push start.

Pause whenever you like

You're in control. With one-touch pause/play, you can take a break from your session and then resume it whenever you're ready.

Breast pump bag and pouch

Wherever you pump, the custom-fit pouch takes you there, keeping your kit insulated and neatly bundled together. The stylish fabric is easy to clean, inside and out.
