Type of lamp: H7 Pack of: 1, 12 V,55 W

Specifications

Marketing specifications

- Expected benefits: More light, More light
- Product highlight: Up to 100% more vision

Product description

- Application: High beam, Low beam
- Base: PX26d
- Designation: H7 X-tremeVision Moto
- Range: X-TremeVision Moto
- Technology: Halogen, Halogen
- Type: H7

Lifetime

- Lifespan: 450 hrs

Light characteristics

- Lumens: 1500
- Color temperature: Up to 3500 K

Electrical characteristics

- Wattage: 55 W
- Voltage: 12 V

Ordering information

- Order entry: 12972XVBW
- Ordering code: 35151430

Packaging Data

- Packaging type: Blister, Blister
- EAN1: 8727900351514
- EAN3: 8727900351521

Packed product information

- Gross weight per piece: 35 g
- Length: 9.500 cm
- Width: 3.500 cm
- Height: 12.900 cm
- Net weight per piece: 12.4 g
- Pack Quantity / MOQ: 10

Outerpack information

- Length: 19 cm
- Width: 19 cm
- Height: 13 cm
- Gross weight per piece: 350 g

12972XVBW

Highlights

ECE homologation

Philips Automotive is dedicated to producing best-in-class products and services in the Original Equipment Manufacturer market as well as in aftermarket. Our products are manufactured from high-quality materials and tested to the highest specifications to maximize the safety and driving comfort of our customers. Our entire production is meticulously tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements.

Manufacturers' choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Unique filament design

Thanks to and improved filament design, specific gas mixture and optimized geometry Philips X-tremeVision moto headlamps achieve unique brightness and durability.

100% more light on the road

Thanks to improved filament geometry and the use of unique gas compositions the X-tremeVision Moto headlamps project up to 100% more vision.

Better lifetime and durability

"Philips X-tremeVision Moto bulbs are designed with state-of-the-art technology which improves lifetime and durability. The bulbs are filled with a unique gas which reduces the deterioration of the lamps filament and increases its lifetime. "

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

Maximum brightness

Based on a unique filament design and optimized geometry, X-tremeVision Moto lamps are engineered with state-of-the-art technology for ultimate performance and bright, white light where it matters the most.
