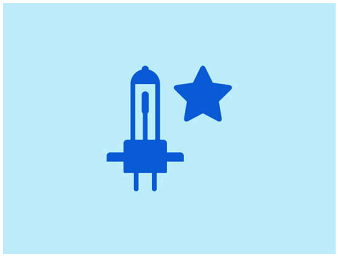
Highlights

4200 Kelvin sharp white light[1]

With up to 4200 Kelvin[1], Philips WhiteVision ultra headlights revolutionize the look of your car with a sharp white light. The right choice for a bright and stylish driving experience!

Cool white effect

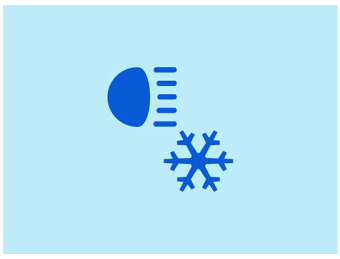


Philips WhiteVision ultra is designed for drivers who are looking for an upgrade with the style and appearance reminding of LED lighting, but drive a vehicle with halogen technology. Thanks to the new and advanced coating formula on the glass, WhiteVision ultra bulbs are our whitest road-legal lights providing a stunning look in the headlamp's reflector.

Stunning road-legal headlights

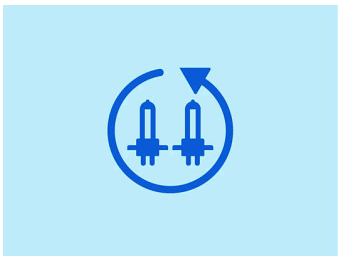
WhiteVision ultra upgrade headlight bulbs are ECE certified for bright white light on the road. Drivers enjoy a vibrant look and a street-legal bulb compliant with relevant regulations. Without compromizing safety by dazzling the car in front, it gives you great visibility.

Engineered for stylish vision



Better and brighter lights allow for increased performance on the road. With their optimised high-precision filament geometry, high-pressure gas filling, high-precision coating and high-quality UV-Quartz glass, Philips WhiteVision ultra headlights set a new standard for road-legal white light. Engineered for great style and visibility, these headlights provide a more relaxed and fun driving experience.

Change in pairs

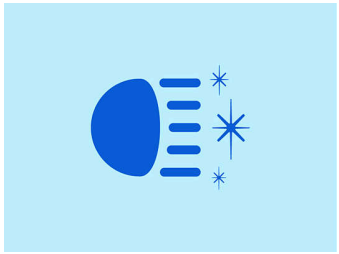


It is simply more efficient to change both headlamps in pairs, rather than only replace the failed one. New, modern bulbs have increased light output and increased performance, offering a safer driving experience. Overall, the benefits and advantages of replacing in pairs are numerous: less hassle, cost savings, avoiding headlight failure, a brighter and more balanced beam, but above all, safety.

Highest quality car lighting

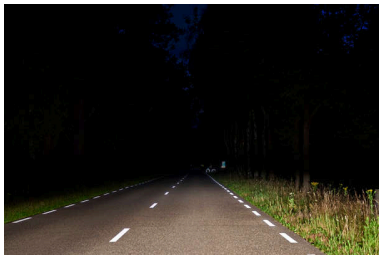
Technologically advanced Philips lighting is renowned in the automotive industry, and has been for over 100 years. The Philips Original Equipment Quality products are designed and developed following strict quality control processes (including applicable ISO norms), leading to consistently high production standards. WhiteVision ultra is compatible with car models of major brands, such as Audi, BMW, Ford, GM, Toyota and Volkswagen. See the product selector guide for more information.

Comfort light for visibility



The new WhiteVision ultra coating formula along with its cool white light, significantly improves visibility at night and enhances driver comfort by reducing eye fatigue. When design meets functionality, you enjoy a great look and enhanced driving comfort.

Up to 60% more vision[2]



A longer beam pattern, with up to 60% more vision[2] compared to the legal minimum standard, enables you to not only see other road users more clearly but also be better seen by them. It improves safety and gives you more time to react to potential hazards on the road ahead.

Specifications

Marketing specifications
Expected benefits: Style
Product highlight: Sharp white look

Product description
Application: High beam, Low beam
Base: PX26d
Designation: 12972WVUSM
Homologation ECE
Range: WhiteVision ultra
Technology: Halogen
Type: H7

Lifetime
Life time: 200h

Light characteristics
Lumens: 1400 +100/-50 lm
Color temperature: up to 4200 K

Electrical characteristics
Wattage: 55 W
Voltage: 12 V

Ordering information
Order entry: 12972WVUSM
Ordering code: 35495928

Packaging Data
Packaging type: SM
EAN1: 8727900354959
EAN3: 8727900354942

Packed product information
Gross weight per piece: 72.2 g
Length: 11 cm
Width: 5.3 cm
Height: 13.3 cm
Pack Quantity: 1
MOQ (for professionals): 10

Outerpack information
Length: 28.6 cm
Width: 14.1 cm
Height: 12 cm
Gross weight per piece: 0.35 kg
