

Philips CityVision Moto
Motorcycle headlights

Type of lamp: HS1

Pack of: 1
12 V,35/35 W

12636CTVBW

Feel safe, ride safe

Up to 40% more vision

For better safety and visibility in city traffic, Philips has designed CityVision Moto lamps produce up to 40% more vision to see further. CityVision Moto bulbs also projects a distinctive, attention-grabbing orange effect in the headlight.

Vibration resistance

- Vibration resistance up to 10G

State-of-the-art technology

- Adhering to high quality standards of the ECE homologation
- Philips moto lamps are made of high-quality quartz glass
- Philips is the choice of major motorcycle manufacturers.

Be seen in traffic

- Designed for city riders
- Distinctive orange effect in the headlight
- 40% more vision on the road

PHILIPS

Highlights

Distinctive orange effect

Philips CityVision Moto headlights have been specifically developed for city-riders. Thanks to their distinctive orange effect, Philips motorcycle bulbs grab driver attention and guarantee an earlier recognition of the rider.

Designed for city use

Philips CityVision Moto headlights are specifically designed to increase rider's security in city environment. The attention-grabbing orange effect as well as the light output increase by 40% allow a safer riding experience in traffic and actively participate in accident reduction.

ECE homologation

Philips Automotive is dedicated to producing best-in-class products and services in the Original Equipment Manufacturer market as well as in after-sales market. Our products are manufactured from high-quality materials and tested to the highest specifications to maximize safety and driving comfort of our customers. Our entire production is meticulously tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements.

Greater light-beam projection

Offering 40% more vision on the road, the Philips CityVision Moto headlights actively participate in increasing rider's security. Thanks to better visibility on the road Philips motorcycle lamps allow for better obstacle recognition and accident prevention.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

Manufacturers' choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standards on modern automobiles. Today, one in two cars in Europe and one in three worldwide, is equipped with Philips lighting.

Vibration resistant

Philips CityVision Moto lamps are designed with state-of-the-art technology to resist vibrations up to 10G and last longer. Those motorcycle bulbs are mounted with an extremely resistant double coil filament to withstand a wide range of vibrations including physical shocks.

Specifications

Marketing specifications

- Expected benefits: More light
- Product highlight: See and be seen

Product description

- Application: High beam, Low beam
- Base: PX43t
- Designation: HS1 CityVision Moto
- Range: CityVision Moto
- Technology: Halogen
- Type: HS1

Lifetime

- Lifespan: 400h

Light characteristics

- Lumens: 825 ±15%
- Color temperature: Up to 3200 K

Electrical characteristics

- Wattage: 35/35 W
- Voltage: 12 V

Ordering information

- Order entry: 12636CTVBW
- Ordering code: 39894630

Packaging Data

- Packaging type: Blister
- EAN1: 8727900398946
- EAN3: 8727900398953

Packed product information

- Gross weight per piece: 46.3 g
- Length: 9.500 cm
- Width: 4.860 cm
- Height: 12.900 cm
- Net weight per piece: 22 g
- Pack Quantity / MOQ: 10

Outerpack information

- Length: 25.500 cm
- Width: 19 cm
- Height: 13 cm
- Gross weight per piece: 463 g

Issue date 2023-09-14

Version: 14.0.1
