

Philips CityVision Moto
Motorcycle headlights

Type of lamp: H7

Pack of: 1
12 V, 55 W
Style

12972CTVBW

Feel safe, ride safe

See and be seen

For better safety and visibility in city traffic, Philips has designed CityVision Moto lamps with a distinctive, attention-grabbing orange effect in the headlight to be seen. CityVision Moto bulbs also produce up to 40% more vision.

Vibration resistance

- Philips moto lamps are made of high-quality quartz glass

State-of-the-art technology

- Respecting high quality standards of the ECE homologation
- Philips is the choice of major motorbike manufacturers.

Be seen in traffic

- Designed for city riders
- Distinctive orange effect in the headlight
- Vibration resistance up to 10G
- 40% more vision

PHILIPS

Highlights

Designed for city use

Philips CityVision Moto headlights are specifically designed to increase rider's security in city environment. The attention-grabbing orange effect as well as the light output increase by 40% allow a safer riding experience in traffic and actively participate in accident reduction.

Distinctive orange effect

Philips CityVision Moto headlights have been specifically developed for city-riders. Thanks to their distinctive orange effect, Philips motorcycle bulbs grab driver attention and guarantee an earlier recognition of the rider.

ECE homologation

Philips Automotive is dedicated to producing best-in-class products and services in the Original Equipment Manufacturer market as well as in aftermarket. Our products are manufactured from high-quality materials and tested to the highest specifications to maximize the safety and driving comfort of our customers. Our entire production is meticulously tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and

vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

Manufacturers' choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Vibration resistant

Philips CityVision Moto lamps are designed with state-of-the-art technology to resist vibrations up to 10G and last longer. Those motorcycle bulbs are mounted with an extremely resistant double coil filament to withstand a wide range of vibrations including physical shocks.

Greater light-beam projection

Offering 40% more vision on the road, the Philips CityVision Moto headlights actively participate in increasing rider's security. Thanks to better visibility on the road Philips motorcycle lamps allow for better obstacle recognition and accident prevention.

Specifications

Marketing specifications

- Expected benefits: More light
- Product highlight: See and be seen

Product description

- Application: High beam, Low beam
- Base: PX26d
- Designation: H7 CityVision Moto
- Range: CityVision Moto
- Technology: Halogen
- Type: H7

Lifetime

- Lifespan: 400h

Light characteristics

- Lumens: 1500
- Color temperature: Up to 3200 K

Electrical characteristics

- Wattage: 55 W
- Voltage: 12 V

Ordering information

- Order entry: 12972CTVBW
- Ordering code: 39898430

Packaging Data

- Packaging type: Blister
- EAN1: 8727900398984
- EAN3: 8727900398991

Packed product information

- Gross weight per piece: 35 g
- Length: 9.500 cm
- Width: 3.500 cm
- Height: 12.900 cm
- Net weight per piece: 12.4 g
- Pack Quantity / MOQ: 10

Outerpack information

- Length: 19 cm
- Width: 19 cm
- Height: 13 cm
- Gross weight per piece: 350 g

Issue date 2023-09-14

Version: 10.0.1
