- Application: High beam, Low beam, Front fog
- Base: P14,5s
- Designation: 12258WVUSM
- Homologation ECE
- Range: WhiteVision ultra
- Technology: Halogen
- Type: H1

Lifetime

- Life time: 250h

Light characteristics

- Lumens: 1550 ±15% lm
- Color temperature: up to 3700 K

Electrical characteristics

- Wattage: 55 W
- Voltage: 12 V

Ordering information

- Order entry: 12258WVUSM
- Ordering code: 00525028

Packaging Data

- Packaging type: SM
- EAN1: 8719018005250
- EAN3: 8719018005267

Packed product information

- Gross weight per piece: 72.2 g
- Length: 11 cm
- Width: 5.3 cm
- Height: 13.3 cm
- Pack Quantity: 2
- MOQ (for professionals): 5

Outerpack information

- Length: 28.6 cm
- Width: 14.1 cm
- Height: 12 cm
- Gross weight per piece: 0.35 kg

Highlights

4200 Kelvin sharp white light

With up to 4200 Kelvin, Philips WhiteVision ultra headlights revolutionize the look of your car with a sharp white light. The right choice for a bright and stylish driving experience!

Stunning road-legal headlights

WhiteVision ultra upgrade headlight bulbs are ECE certified for bright white light on the road. Drivers enjoy a vibrant look and a street-legal bulb compliant with relevant regulations. Without compromising safety by dazzling the car in front, it gives you great visibility.

Comfort light for visibility

The new WhiteVision ultra coating formula along with its cool white light, significantly improves visibility at night and enhances driver comfort by reducing eye fatigue. When design meets functionality, you enjoy a great look and enhanced driving comfort.

Up to 60% more vision

A longer beam pattern, with up to 60% more vision compared to the legal minimum standard, enables you to not only see other road users more clearly but also be better seen by them. It improves safety and gives you more time to react to potential hazards on the road ahead.

Engineered for stylish vision

Better and brighter lights allow for increased performance on the road. With their optimised high-precision filament geometry, high-pressure gas filling, high-precision coating and high-quality UV-Quartz glass, Philips WhiteVision ultra headlights set a new standard for road-legal white light. Engineered for great style and visibility, these headlights provide a more relaxed and fun driving experience.

Change in pairs

It is simply more efficient to change both headlamps in pairs, rather than only replace the failed one. New, modern bulbs have increased light output and increased performance, offering a safer driving experience. Overall, the benefits and advantages of replacing in pairs are numerous: less hassle, cost savings, avoiding headlight failure, a brighter and more balanced beam, but above all, safety.

Highest quality car lighting

Technologically advanced Philips lighting is renowned in the automotive industry, and has been for over 100 years. The Philips Original Equipment Quality products are designed and developed following strict quality control processes (including applicable ISO norms), leading to consistently high production standards. WhiteVision ultra is compatible with car models of major brands, such as Audi, BMW, Ford, GM, Toyota and Volkswagen. See the product selector guide for more information.
