# Specifications

## Marketing specifications

- Expected benefits: White light
- Product highlight: 3700K

## Product description

- Application: High beam, Low beam, Additional high beam
- Base: PX43t
- Designation: HS1 BlueVision
- Homologation ECE: NO
- Marking ECE: N/A
- Range: BlueVision Moto
- Technology: Halogen
- Type: HS1

## Lifetime

- Life time: 400h

## Light characteristics

- Color temperature: up to 3700 K
- Lumens: 600 ±15% lm

## Electrical characteristics

- Wattage: 35/35 W
- Voltage: 12 V

## Ordering information

- Order entry: 12636BVB1
- Ordering code: 77787430

## Packaging Data

- Packaging type: B1
- EAN1: 8711500777874
- EAN3: 8711500777928

## Packed product information

- Gross weight per piece: 77.5 g
- Length: 9.5 cm
- Width: 5 cm
- Height: 12.9 cm
- Net weight per piece: 22.5 g
- Pack Quantity / MOQ: 10

## Outerpack information

- Length: 25.9 cm
- Width: 20.1 cm
- Height: 14.6 cm
- Net weight per piece: 225 g
- Gross weight per piece: 0.775 g

12636BVB1

# Highlights

## Road legal

Philips BlueVision Moto bulbs are fully homologated for road legal use for a safe ride.

## High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

## 3700K bright white light

With a white light of 3700K, BlueVision Moto lamps offer a greater visibility on the road as well as a unique effect in the optics which makes you stand out amongst other riders.

## Car manufacturers' choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standards on modern automobiles. Today, one in two cars in Europe and one in three worldwide, is equipped with Philips lighting.

## UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass perfect for all driving conditions and ensures their longevity.
