## Highlights

### 5000K white light for style

Based on the special complete blue coating design, DiamondVision is offering ultimate white light of 5000K, bringing style to your headlights

### Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

### Commended Car lamps

Our lamps are often commended by automotive experts.

### Change by pairs

Highly recommended to change them by pairs for symmetric light performance

### High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability to withhold increased pressure inside the lamp, UV-quartz glass is able to produce more powerful light.

### Designed for multiple usage

Which 12V lamp for which function? Philips Automotive offers all car specific functions : high beam, Low beam, front fog , front indicator, side

indicator, rear indicator, stop light, reversing light, rear fog light, license plate lights, rear position/parking light, interior lights

### Resistance against humidity

Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : such as, if a drop of cold water touches the hot bulb, when you drive through water with a broken headlight unit.

### UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass ideal for all driving conditions and ensures their longevity at the same time.

## Specifications

### Marketing specifications

Expected benefits: Style  
Product highlight: 5000K

### Product description

Application: Additional high beam, High beam,  
Low beam  
Base: PX26d  
Designation: H7 WeatherVision  
Homologation ECE: NO  
Marking ECE: N/A

Range: DiamondVision  
Technology: Halogen  
Type: H7

### Lifetime

Life time: B3/Tc = 200/400

### Light characteristics

Color temperature: 5000 K  
Lumens: 935 ±15% lm

### Electrical characteristics

Wattage: 55 W  
Voltage: 12 V

### Ordering information

Ordering code: 53289030

### Packaging Data

EAN1: 8727900532890  
EAN3: 8727900532906
