- Philips is the choice of major car manufacturers
- Award-winning car lamp manufacturer
- Philips car lamps are highly resistant against humidity*
- Philips car lamps are highly UV resistant

PHILIPS

Highlights

5000K white light for style

Based on the special complete blue coating design, DiamondVision is offering ultimate white light of 5000K, bringing style to your headlights

Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Commended Car lamps

Our lamps are often commended by automotive experts.

Change by pairs

Highly recommended to change them by pairs for symmetric light performance

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2650° C and glass 800° C) are able to withstand severe thermal shock. With the capability to withhold increased pressure inside the lamp, UV-quartz glass is able to produce more powerful light.

Designed for multiple usage

Which 12V lamp for which function? Philips Automotive offers all car specific functions :

high beam, Low beam, front fog, front indicator, side indicator, rear indicator, stop light, reversing light, rear fog light, license plate lights, rear position/parking light, interior lights

Resistance against humidity

Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : such as, if a drop of cold water touches the hot bulb, when you drive through water with a broken headlight unit.

UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass ideal for all driving conditions and ensures their longevity at the same time.

Specifications

Marketing specifications

- Expected benefits: Style
- Product highlight: 5000K

Product description

- Application: Additional high beam, High beam, Low beam
- Base: PX26d
- Designation: H7 WeatherVision
- Homologation ECE: NO
- Marking ECE: N/A
- Range: DiamondVision
- Technology: Halogen
- Type: H7

Lifetime

- Life time: B3/Tc = 200/400

Light characteristics

- Color temperature: 5000 K
- Lumens: 935 ±15% lm

Electrical characteristics

- Wattage: 55 W
- Voltage: 12 V

Ordering information

- Ordering code: 53289030

Packaging Data

- EAN1: 8727900532890
- EAN3: 8727900532906

Issue date 2023-09-14

Version: 6.0.1
