# Specifications

## Marketing specifications

- Expected benefits: More light
- Product highlight: Up to 130% brighter light

## Product description

- Application: Additional high beam, High beam, Low beam
- Base: P14.5s
- Designation: H1 X-tremeVision Plus
- Homologation ECE
- Marking ECE: E1 21P
- Range: X-tremeVision Plus
- Technology: Halogen
- Type: H1

## Lifetime

- Life time: 350 h

## Light characteristics

- Color temperature: 3500 K
- Lumens: 1550 ±15%

## Electrical characteristics

- Wattage: 55 W
- Voltage: 12 V

## Ordering information

- Order entry: 12258XVPB1
- Ordering code: 37380630

## Packaging Data

- EAN1: 8727900373806
- EAN3: 8727900373813
- Packaging type: B1

## Packed product information

- Gross weight per piece: 30 g
- Length: 9.5 cm
- Width: 2.7 cm
- Height: 12.9 cm
- Net weight per piece: 6 g
- Pack Quantity / MOQ: 10

## Outerpack information

- Length: 20.1 cm
- Width: 14.4 cm
- Height: 14.6 cm
- Gross weight per piece: 300 g

# Highlights

## The safest legal car lights

Philips X-tremeVision Plus is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. They are fully ECE certified.

## A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision plus is optimized for a long and reliable lifetime. So you can see and be seen for longer than with any other high performance lamp.

## Exceptional beam quality

With a combination of more light and increased color temperature, Philips X-tremeVision plus qualifies as one of the best performance beams in the halogen segment.

## Extra light, extra lifetime

Philips X-tremeVision plus headlights are made for outstanding performance, producing up to 130% brighter light, without compromising on the lifetime. With up to 450 hours\*, Philips X-tremeVision's lifetime is significantly higher than competitor solutions in the more light category. (\*H4 and H7 tested at 13.2V standard voltage)

## Great contrast drives comfort

The increased color temperature in Philips X-tremeVision plus headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

## One of the brightest bulbs

With its optimized high-precision filament geometry, up to 13 bar high pressure gas filling, high precision coating and high quality UV-Quartz glass, Philips X-tremeVision plus headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

## See further, react faster

Perfect illumination is especially important in the distance – usually between 75-100 meters in front of your vehicle. Philips X-tremeVision plus boosts your visibility with up to 130% more brightness. This helps you recognize obstacles and any potential dangers earlier than with most other halogen headlight lamps.

## Significantly whiter light

The bright white light (3.500 K) is significantly whiter than standard headlamps. The Philips patented gradient coating technology<sup>TM</sup> produces a more powerful light. So you can enjoy one of the brightest lighting performances and a highly comfortable night driving experience.
