- Say goodbye to the key-only era
- Effortlessly meet your diverse needs

#### Smart life "locked" with excellence

- Instant unlock with one touch
- Manage your locks with our all-in-one solution

# PHILIPS

# Highlights

## Semiconductor fingerprint

Unlock the door with a single touch of your fingertip using the semiconductor fingerprint sensor of the DDL503-13HBS. With a recognition speed no more than 0.5 seconds\*, enjoy a fast and convenient door-opening experience.

## App\* control

By connecting the DDL503-13HBS lock to the Philips EasyKey Plus App, you can access information such as battery level and activity history, and even unlock the door with a single touch on your phone from up to 10 meters\* away.

## Hall sensor

Our lock comes with Hall sensor technology to automatically lock the door as soon as it's closed in auto mode. The deadbolt pops up instantly, providing you with peace of mind as you leave.

## Multiple alerts

Our DDL503-13HBS smart lock comes with multiple alerts including anti-disassembly, system lockout, abnormal deadbolt, and privacy mode alerts. It not only provides constant protection for your home, but also keeps you updated on the condition of the door lock in real time for your convenience.

## 3 unlocking methods

Our DDL503-13HBS smart lock supports three unlocking methods: fingerprint, PIN code, and mobile app. This allows you to effortlessly and securely unlock your door in any situation, meeting your various unlocking needs. With our smart and convenient unlocking experience, you'll enjoy the ultimate peace of mind.

## Switch between 5 languages

Philips DDL503-13HBS smart lock features real human voice navigation\*, supporting five languages including Chinese, English, Spanish, Portuguese, and Indonesian. With simple operation and easy language switching, it can meet the diverse needs of users.
