### User-friendly

- Easily replaces the interior portion of your deadbolt
- Grant access anytime, anywhere
- Use your wireless keypad to unlock

### Upgraded safety features

- Perfect for guarding your doorway

### Connect to a smarter life

- Remotely control the lock with your smartphone
- Always know the door status
- Know who's coming
- Control your doorway with voice command

### Dedicated design for perfection

- With just a screwdriver

## 3000 series

Retrofit lock with keypad

DDL230XI5KTK/37

# Highlights

### Upgrade your existing deadbolt

The retrofit lock is easy to install and set up. It is also compatible with most standard deadbolts in the market, and allows you to keep your original keys while enjoying the benefits of a smart lock.

### Simple sharing

Works with the Philips Home Access App to share access with friends, family members or anyone you want anywhere and anytime. Know who is coming and leaving with instant notifications.

### Fingerprint and PIN code

Stores up to 50 fingerprints and 100 PIN codes of family members, guests, or tenants. Users can choose either of the access method to unlock.

### Built-in Wi-Fi

The Philips Wi-Fi retrofit lock has a built-in Wi-Fi module, and does not require an extra Wi-Fi bridge to be controlled remotely. It is easy to control your lock and securely manage user account via the Philips Home Access App. You can also remotely unlock for your family members, friends, visitors and more.

### Door position sensor

The door position sensor can confirm that your door is securely closed, no more asking for help from your neighbors to check your door status.

### Unlock notifications

Works with the Philips Home Access App to know who is coming through real-time notifications.

### Smart home ready

Control and check your lock status with voice command through Amazon Alexa or Google Assistant.

### Built-in alerts

A built-in sensor will sense the vibration of the door and alert homeowners with notifications to the Philips Home Access App. Two alert modes let you know when someone is pounding at your door or knocking on your door.

### Easy installation

The door lock installs in minutes with just a screwdriver and is compatible with most standard deadbolts.
