Highlights

Advanced LED Light Source

The powerful LED light source displays rich, vivid colours and will last up to 30,000 hours. You won't need to replace it as it lasts 20 years with an average usage of 4 hours per day! Additionally, the power consumption is far lower than a regular lamp-based projector, which means you benefit from a bigger screen and fully immersive experience, all through an eco-friendly device!

Audio jack

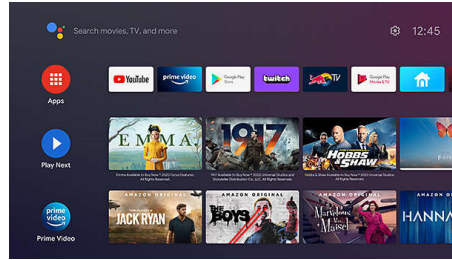

Connect any headphones or external powered speakers with the built-in 3.5 jack.

Booming Sound

Booming 2 x 15 watts with Surround and bass boost for maximum power, providing deep immersion for films and music.

Built-in Android TV

Get the full Android TV experience thanks to the built-in Android TV dongle. All your favourite apps are there, Google Cast and more!

Built-in Media Player

Pop your essentials in your hand with the integrated Media Player: Browse, watch all of your videos, listen to your music or share your latest holiday pictures.

Fully Connected (USB, HDMI, SP

Connect all your favourite devices via HDMI and play all your videos, pictures and audio files from USB thanks to the built-in multimedia player.

Get an impeccable image

Place it wherever you wish! Horizontal and vertical keystone as well as digital zoom corrections help eliminate crooked and distorted images for a perfectly proportioned picture even if the device is not straight in front of the wall.

Project images up to 100"

Entertainment in every room, project anything up to 100" (255cm) diagonally.

Smart remote for many controls

Our convenient remote control lets you easily browse content and options. Just ask Google Assistant to play, pause, search and more!
