PHILIPS

Neck massager
Vibration massage Wraparound support, Thermostatically hot compress

PPM3306DB/97

Specifications

General specifications

- Color: Dark blue
- Net weight: about 0.43 kg
- Product Dimension (LxWxH): 215x221x126mm mm
- Massage type: Point vibration, Hot compress
- Main materials: Elastic fabric
- Quantity of massage nodes: 4

Main parameters

- Auto shut-off time: 15 minutes
- Working voltage: 3.7 V

- Working power: 5 W
- Battery: 2000 mAh
- Charging current: 1 A
- Charging port: USB Type-C
- Charging voltage: 5 V

Country of origin

- Made in: China

Service

- Warranty period: 2 years

Highlights

Warmly hot compress

The heat penetrates deeply into the massage area to accelerate blood circulation and help relieve muscle tension. Reasonable preset temperature provides a comfortable and safe hot compress experience, avoiding accidental burns.

Multiple points massage

4 massage nodes are set up for the parts of the neck that are prone to fatigue. Relax tired parts through high-frequency vibration, shake quickly, and release muscle fatigue.

Timing shut-off

Preset 15-minute working time for automatically shut off, effectively avoiding damage to muscle tissue or skin caused by excessive massage or hot compress.

Plug-in lock, easy to adjust

The massager adopts a detachable plug-in lock, which can be tightened strongly and at the same time easy to adjust the tightness

Fine fabric

The surface is made of skin-friendly and breathable elastic fabric, which provides a comfortable touch while preventing allergies or skin damage from friction products

Double layer sponge

The interior is filled with double-layer high-rebound sponge, which is comfortable and soft, and can provide stable support

Detachable design

The outer cloth cover of the massager can be disassembled and cleaned, which is convenient for daily care, keeps the pillowcase clean and hygienic, and protects the health of the skin.
