Highlights

Advanced LED Light Source

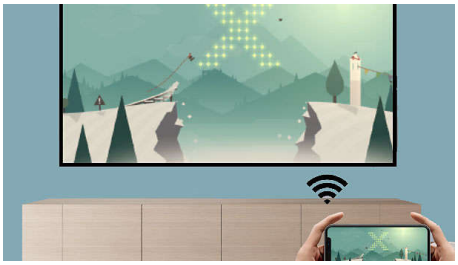

The powerful LED light source displays rich, vivid colors and will last up to 30,000 hours. You won't need to replace it since it lasts 20 years with an average usage of 4 hours per day! Additionally, the power consumption is far lower than a regular lamp based projector, which means you benefit from a bigger screen and fully immersive experience, all through an eco friendly device!

NeoPix 110 in True HD 720p

The NeoPix 110 offers True 720p HD for watching all your favourite movies and TV shows on a 65" screen. The short throw engine helps to reduce the projection distance to get an even bigger picture when it's only 2 meters away from the wall. The NeoPix 110 is equipped with an integrated stand screw and can be mounted on a tripod.

Smart Wi-Fi screen mirroring

Connect your mobile devices such as a tablets, smartphones or even computers wirelessly to mirror and share your contents. Videos on your phones? No worries, just cast it through Wi-Fi! (IOS, Android, Mac and PC). With the Dual band (2.4 and 5GHz), your connection will get even more stable and faster for smoother playback.

Built-in media player

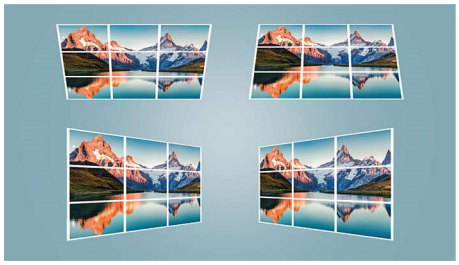

Thanks to the integrated media player, you have everything at your fingertips: browse and watch all your videos, listen to your music or project your latest holiday photos. Just plug your USB Stick or hard drive to enjoy all your local content.

Fully connectable options

Connect any media device: set-top boxes, computers, game consoles and streaming boxes such as Fire Stick or Apple TV thanks to its built-in USB, HDMI. Enough of wires! Connect your smart dongles (Amazon Fire Sticks, Roku...) to the USB power out (5V1A) and get rid of an external adapter.

Personnalize your projection

Optimize your placement options with image options! The keystone correction and focus technology enable you to customize images according to your preferences and position your projector at your desired distance.
