PHILIPS

Home projector
120" in True FULL HD 1080p Android TV experience, Booming 2.1 Sound, Super Silent

Highlights

Advanced LED Light Source

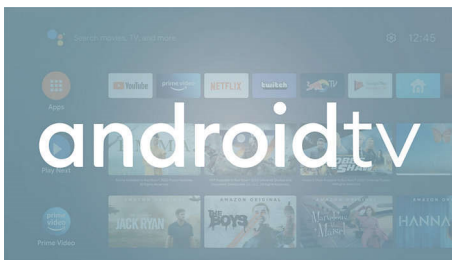

The powerful LED light source displays rich, vivid colours and will last up to 30,000 hours. You won't need to replace it as it lasts 20 years with an average usage of 4 hours per day! Additionally, the power consumption is far lower than a regular lamp-based projector, which means you benefit from a bigger screen and fully immersive experience, all through an eco-friendly device!

2.1 Powerful sound system

Thanks to its 2.1 audio system (two speakers and a subwoofer), immerse yourself in an exceptional sound sensation. Thanks to its 3.5mm jack output, connect your earphones for even bigger sound with speakers.

Android TV 11 Experience

Android TV 11 is integrated to deliver the film experience you deserve. Enjoy thousands of films and shows from your favourite apps.

Launch the latest episode, pick up where you left off, or switch to a new show. You can even find music, games, music videos and YouTube videos right from your customisable home screen. NeoPix delivers a flawless, industry-leading Android TV experience.

ChromeCast Built-in

Chromecast built-in is a piece of technology that allows you to stream your favourite entertainment and apps from your phone, tablet or laptop right to your TV or speakers. Your phone acts as a simple, powerful remote. Just open the mobile apps you already know and love to quickly access your TV shows and playlists. No new logins or downloads required. You can use your phone to search, browse, queue and control the projector from anywhere in the home, and keep using it without disrupting what's playing or draining your battery.

Customise your set-up

Place the projector wherever you wish! Auto keystone and 4-corner correction help eliminate crooked, distorted images for a perfectly proportioned picture even if the device is not straight in front of the wall. It also gives users an optimal image from virtually any angle and eliminates many of the hassles of an optimal set-up. Big space, small wall? Easy! The

NPX720/INT

digital zoom maximises the image size even if your projector is far away from a wall.

NeoPix 720 in True Full HD 108

Watch films and more in True Full HD 1080p high-definition sharpness, full of the fine detail that can be lost at lower resolutions. The picture remains lifelike and text is crystal clear when displayed

OK Google Ready

Want to play a game, watch Netflix or find content and apps in the Google Play store? Just tell your projector. You can even command all Google Assistant-compatible smart home devices, like dimming the lights and setting the thermostat on film night.

Super silent

Fully engineered to improve airflow and heat dissipation while maintaining a compact design. Enhanced by the use of high-performance fans, it offers an unprecedented silence.

Specifications

Technology

- Display technology: LCD
- Light source: LED
- Brightness: up to 700 lumens*
- Contrast ratio: 3000:1
- Resolution: 1920 x 1080 pixels
