steps

BeardSense Technology

BT3441/30

Maximum precision. Be in control of your beard.
BeardSense Technology for an even trim.

Thanks to the BeardSense Technology, this trimmer gives maximum precision and evenness by adapting to the density of your beard. You have full control of your beard, with precision steps starting at 0.2mm and self-sharpening titanium blade.

Built to last

- Longer lasting battery lifetime
- 3 year* warranty, worldwide voltage, no oil needed

Skin-friendly and precise trimming experience

- Trims evenly and captures low-lying hairs
- Skin-friendly rounded tips for smooth skin contact

Easy and convenient use

- USB charging for convenient use
- Simple maintenance
- Cordless use for up to 90 mins
- Easy to grip
- Lights indicate when battery is low, empty, full or charging

Ultimate beard styling

- Click-on precision trimmer for perfect edges and details
- Superior performance with self-sharpening titanium blades

Highlights

2.5x more Precision *

Cut to the exact length you are after. Easily spin the precision dial to one of the 20 length settings between 0.4-10mm. Giving you full control starting with 0.2mm precision steps.

BeardSense Technology

BeardSense Technology checks the hair density of your beard 125 times per second and automatically adapts the motor to maintain constant cutting performance.

Self-sharpening titanium blade

The self-sharpening titanium blades on the Philips 3000 beard trimmer stay as sharp and effective as on day 1 to deliver a perfect yet protective trim, time after time.

Precision trimmer

Trim your moustache or define details and edges in hard to reach areas with the click-on precision trimmer.

Skin-friendly blades

Designed to prevent scratches and irritation, the blades have rounded tips for smoother skin contact.

Lift&Trim system

Perfect for stubble, the Philips beard trimmer features our new Lift & Trim system: a comb that lifts and guides the hairs to the level of the blades for an even trim.

90 min cordless use

A powerful lithium-ion battery provides up to 90 minutes of cordless grooming time with just 1 hour charge. The 5 minute quick charge function gives you enough power for one trim.

Battery indicators

The battery indicators in this trimmer let you know what your battery status is: Low, empty, charging or full. This way, you can charge your trimmer on time and fully, so you won't end up with an empty battery in the middle of your trim.

USB charging

This beard trimmer comes with a USB cable for more flexible charging. The adaptor is not included (recommended adaptor Philips HQ87).
