- Natural oral development
- Natural feel for baby

### **Quality assured**

Designed and produced in the Netherlands

### **Supports sleeping routines**

• Long lasting glow-in-the-dark

Pacifier SCF376/18

## Highlights

### Lets baby's skin breathe

Extra-large airholes ventilate your baby's skin keeping it dryer while soothing.

#### 98% teat acceptance\*

When we asked parents how their little ones respond to our textured, silicone nipples, an average of 98% said that their baby accepts the Philips Avent ultra soft and ultra air soothers.

### Long lasting glow-in-the-dark

Use ultra air's glow in the dark button to find your baby's pacifier quickly without having to switch on the lights.

### Nipple made of 100% silicone

We choose consciously for silicone material for our ultra soft and ultra air nipples, since it's a safe and inert material, widely used in medical applications, free of hazardous chemicals, endocrine active substances (e.g. BPA) and allergens.

### **Orthodontic nipple**

Our orthodontic, symmetrical soft silicone nipples are designed for natural oral development.

### **Natural feel for baby**

Our textured silicone nipple is designed to mimic the feel of mom's breast.

#### Sterilize in 3 minutes

The travel case that comes with our ultra soft and ultra air pacifiers doubles as a sterilizer. All you need to do is add some water and pop it in the microwave. Then rest easy that it's clean for the next use.

### **Produced in the Netherlands**

Our ultra soft and ultra air pacifiers are designed and produced in the Netherlands.
